Pseudomonas 7419.

Pseudomonas 
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          1444.
antibacterial activity, cefoperazone, cefotiam 599.
antibacterial activity, cefotaxime, cephalosporin antibiotics 4713.
antibacterial activity, cefotiam 1384.
antibacterial activity, cephalotin 1369.
antibacterial activity, cephalotin 1369.
7342.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    antibacterial activity, meclocycline, potentiation, association, propyl gallat 7242.
antibacterial activity, meclocycline 9852.
antibiotic resistance, β-lactam antibiotics 4615.
antibiotic sensitivity testing, β-lactam antibiotics, mecillinam, drug sensitivity testing, aldiktic self, o-crimoxazole 3079.
antibiotics activity 5549.
antibiotics activity 5549.
antibiotics activity 5549.
antibiotics activity 5519.
cefporazone, antibiotic venergism, penicillinase inhibitors 597.
cefporazone, antibiotic venergism, penicillinase inhibitors 597.
ceffazidime, antibacterial activity 5519.
cephalosporins, antibacterial activity 5519.
cephalosporins, antibacterial activity 5519.
cephalosporins, antibacterial activity 5619.
celinical isolates, antibiotic resistance, mastitis, cattle 3895.
chinical isolates, antibiotic resistance, mastitis, cattle 3895.
chinical isolates, antibiotic resistance 3084.
clinical isolates, capetimycin, antibacterial activity 7147.
clinical isolates, capetimycin, antibacterial activity 7147.
clinical isolates, capetimycin, antibacterial activity 7147.
clinical isolates, capetimycin, antibacterial activity, man serum effects on 8924.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    8924. clinical isolates, ceroperazone, antibiotic sensitivity testing 8841. clinical isolates, characterization, computer applications 2456. clinical isolates, characterization, computer applications 2456. clinical isolates, typing, computers, analysis 1590. colonization, Raphanus sativus, association, Klebsiella seed treatments 1158. dibekacin antibacterial activity 5546. drug resistance, antibiotic resistance 489. drug resistance, mercury 124. resistance, parenty 124. reye diseases, drug sensitivity testing, case surveys 5494. food isolates, antibiotic resistance 1270. hospitals role, nosocomial infection, incidence 5609. identification, methodology, patents 7340. incidence, cattle bedding 8133. incidence, cattle bedding 8133. incidence, ospitals role, nosocomial infection, man 5610. isolation, β-D-mannosidase 885.
```

Iebsiella, (continued)
nosocomial environments isolates, R factors, F lac factor, col factor, plasmids,
antibiotic resistance, clinical aspects, man 4663.
opportunistic infection, wetwood, association dieback, Abies alba 8708.
penicillinase activity, inhibitors, characterization 5776.
penicillinase biosynthesis, detection methodology 1606.
plasmids, characterization, role, drug resistance 5405.
plasmids mediation, antibiotic resistance, aminoglycoside antibiotics 1253.
rhizosphere microorganisms, pathogenicity, Beta vulgaris crops, identification,
characterization 5205.
ribitol debydrogenase, structure, comparison abacterization structure. Kluyveromyces laetis, biodegradation, oils emulsions, physicochemical properties 92.55 Kluyveromyces marxianus, ethanol production, tubers, Helianthus tuberosus 6655. fermentation, xylose, production, ethanol 9242. Knives, Abattoirs, meat, Salmonella, disease transmission 5935.

Koji,
effects on microorganisms, fermented food, peanuts, soybeans products 5023.
fermented food, tyrosine crystals, role, Aspergillus 960.
molds, growth, enzymes biosynthesis, rote chemical composition effects on 5043.
peanuts, soybeans, fermentation, physical characteristics, chemical
characteristics, Aspergillus oryzae, Rhizopuso oligosporus 5030.
rice, Aspergillus oryzae var viride, enzymante activity, biomass, oxygen
consumption, mathematical models 984.
rice, bacteria Aspergillus oryzae culture 803.
starter cultures, fungi, xylanase activity 2682.

Korean hemorrhagie fever,
indirect fluorescent antibody test, interference antigen-antibody complexes,
Clethrionomys glareolus, Apodemus agrarius coreae \$180.

Korean hemorrhagie fever virus,
hemorrhagie nephrosonephritis, antigens, detection, indirect fluorescent antibody
test, Clethrionomys glareolus, Clethrionomys rutilus \$214.

Korean hemorrhagie fever, indirect fluorescent antibody test, interference
antigen-antibody complexes, Clethrionomys glareolus, Apodemus agrarius coreae
8180.

Kuwalt, pattoirs, meat, Salmonella, disease transmission 5935. characterization 5205.
ribitol dehydrogenase, structure, comparison, alcohol dehydrogenase, sheep, evolution 3407.
rifampician-trimethoprim antibacterial activity 1414.
Streptococcus pneumoniae, polysaccharides, cross-reactivity, immune response, immunodiffusion, mice, vaccines 3142.
urnary tract infection, man, antibacterial activity, cinoxacin, DNA biosynthesis inhibition 7134. Klebsiella aerogenes, cadmium resistance, role cadmium sulfide formation 9783. ctinical isolates, antibacterial activity, ceftazidime 4695. culture, chemostats, calorimetry 4137. cycloserine, antibacterial activity, transport, cultural conditions, effects on 1442. nitrate reductase, orientation, membranes, methodology 2428 nitrate reductase, orientation, membranes, methodology 2428. Klebskella edwardsli, antibacterial activity, ampicillin, amoxycillin 3085. ATP levels, growth, gentamicin, bioassays, bioluminescence 6266. Klebskella oxytoca, antibiotic 6059-8 antibacterial activity 1443. isolation, 3-hydroxyonthranilic acid, 5-hydroxydeoxyvasicinone 837, nitrogen fixation, isolates, characterization, roots, Triticum 2061. taxonomy, phenotypes, proteins, beer isolates 72. Kuwait. seawater, coliforms, antibiotic resistance 6140.

Kynurenine 3-monooxygenase,
amino acids derivatives inhibition, Saccharomyces carlsbergensis 8373. taxonomy, phenotypes, proteins, beer isolates 72.
Klebsiella preumoniae,
aminoglycoside adenylyltransferase, purification, substrate specificity 847.
antibacterial activity, aminoglycoside antibiotics 5535.
antibacterial activity, antibiotic DL473, in vitro, in vivo 1750.
antibacterial activity, cefadroxil, in vitro 1370.
antibacterial activity, cefadroxil, in vitro 1370.
antibacterial activity, ceforiam 1578.
antibacterial activity, ceforiam 1578.
antibacterial activity, ceforiam 1578.
antibacterial activity, ceforiam 1578.
antibacterial activity, mortalactam, cefotaxime, thienamycin, cefsulodin 2228.
antibiotic resistance, relationship R factors 3893.
p-azidobenzoyl coenzyme A photoaffinity labelling citrate (pro-3S)-lyase 8388.
biosynthesis, penicillinase, inhibition, sulbactam, antibiotic synergism, mice
1431.
cefmetazole antibacterial activity, infants, man 1377. Labelling, Actinomyces viscosus, immunoelectron microscopy, methodology, characterization 9093 glycoproteins, proteins, avian infectious bronchitis virus, growth, chick embryos 2357. immunoperoxidase test, Anaplasma marginale, association, Dermacentor andersoni Labidura riparia, eggs, hygiene, effects on maternal behavior 2319. Labilab niger, seeds, seed-borne fungi isolation, identification, pathogenicity 6880. Lablab purpureus, disease reservoirs, Phakopsora pachyrhizi, rust, Glycine max 6764. 1431.

cefmetazole antibacterial activity, infants, man 1377.

clinical isolates, antibacterial activity, ceftazidime 4681.

clinical isolates, trimethoprim drug resistance 8785.

contamination, spices 1781.

enhancement, production, 2,3-butanediol, association, acetic acid, sugars,

concentration 9246. aboratories, anaerobic conditions, equipment 2499.
bacteriology, data processing, computer applications, hospitals 3256,
clinical microbiology, safety, decontamination, methodology 9133.
clinical microbiology, safety, decontamination, methodology 9133.
clinical microbiology, safety regulations 9997.
fermentation studies, microorganisms culture 71.
fermenters, sampling technology 4175.
hospitals, clinical microbiology, surveys, data processing 6537.
identification, Neisseria gonorrhoeae clinical isolates 3270.
inhibitors detection, milk, preservatives, use 176.
microbiology, liquid chromatography 8151.
quality control, cost-benefit analysis 7986.
sterilization, bacteria, fungi, radioresistance 4669.
tests, drug sensitivity testing, antimicrobial agents, clinical aspects 5484.
wastes, decontamination, autoclaves, microorganisms 8152.
aboratory animals, enhancement, production, 2,3-butanediol, association, acetic acid, sugars, concentration 9246.

R factors, cephalosporins antibiotic resistance, membrane permeability 5401. food contamination, weaning, infants, man 7572. gentamicin, bioassays, serum 2462. growth kinetics, BOD, COD, determination, batch culture 2464. histamine production, spoilage, Katsuwonus pelamis 8476. in vitro antibacterial activity, temocillin, comparison, cefazoli 8028. infection, treatment, antibiotic 6059-5, children 1448. isolation, spiese, food quality 5033. Maclura pomifera fruity extracts antibacterial activity 1297. metolicilin-metroidizode antibacterial activity, aerobic conditions 8027. microbiocidal activity, formaldehyde aerosols 9831. mixed culture, Rhodospirilium urburm, immobilizade cells, hydrogen production 49. nif gene, gene manipulation, nitrogen fixation, plants 2043. nitrogen sources, triazine 2069. nitrogen sources, triazine 2069. nitrogenase iron protein, amino acid sequence, cortparison Azotobacter vinelandii, Clostridium pasteurianum, Anabaena, phylogeny 5722. nitrogenase molybdenum-iron protein, ATP role mechanisms 8319. nosocomial infection, bacterication 7377. production, 2,3-butanediol, anaerobic conditions, hydrolysis, hemicellulose 8421. propandiol delydyratase, pyridoxal 5'-phosphate chemical modification, inaertivation 2600. Pullulanase, devtran use purification 8354. Wastes, decollaminature, autocards, instruction and Laboratory animals, drinking water, contamination, treatment 688.

Labyrintula, association, Gigaspora gigantea spores, dunes isolates 2030. Lacanobia oleracea, pest control, pathogens, Bacillus thuringiensis 4949. Laccaria laccata. mycorrhizas, colonization, roots, Pseudotsuga menziesii seedlings 2902. Laccase, biosynthesis, Lactarius, mycorrhizas 5335. Lachneilula. characterization, Abies isolates 1141. Lachanospira multiparus,
Eubacterium limosum, mixed culture, pectin, metabolism, hydrogen transfer 1768.
Lactaldehyde reductase (NADPH),
immobilized enzymes, Neisseria gonorrhoeae detection, antibodies, U.V. radiation propianedioi delivaratuse, pytiooxai) -pnospnate enemicia modultuation, inactivation 2600.
pullulanase, dextran use purification 8354.
recovery, surfaces, antibacterial activity Thran 5800.
recovery, surfaces, antibacterial activity, Thran 6168.
soil isolates, chloramphenicol antibiotic resistance 9785.
taxonomy, phenotypes, proteins, beer isolates 72.
ultrastructure, cefotiam, cefazolin, antibacterial activity, in vitro, in vivo fluorescence 8262 β-Lactam antibiotics. Agrobacterium radiobacter, isolation, production, biological properties 6322.
Agrobacterium radiobacter, production, isolation, characterization 6324,
antibacterial activity, anaerobic bacteria, companison, cefrixarone 8017,
antibacterial activity, antibiotic resistance, Bacteroides clinical isolates
8905. 8905.
antibacterial activity, bacteria, viability, role, adherence, surfaces 2206. antibacterial activity, Bacteroides fragilis, in viro 1440. antibacterial activity, Chlamydia trachomatis 5521. antibacterial activity, clinical isolates, Pseudomonas aeruginosa 4696. antibacterial activity, clinical isolates, Staphylococcus aureus, Enterobacteriaceae, Pseudomonas 8014. antibacterial activity, comparison, ceftazidime, aminoglycoside antibiotics, cephalosporins, clinical isolates, segram-negative bacteria 4686. antibacterial activity, comparison ceftazidime, antibiotic resistance, role penicillinase 4687. artibacterial activity, comparison ceftazidime, antibiotic resistance, nole penicillinase 4687. vaccines, antigenic relationship, ribosomes, polysaccharides 2295.

Xylose, metabolism 898.

Klebsielia-Ederobacter,
clinical isolates, antibacterial activity, gentamicin, sisomicin, aminosidine,
rifamycin 2236. Kluyeromyces fragilis, dairy products, enumeration methodology, media (culture) 6529. Kluyeromyces marxianus, immobilized cells, ethanol production, tubers, Helianthus tuberosus 6657. Kluyveromyces, alcohol fermentation, factors affecting 53 penicilinase 4682. antibacteria activity, comparison ceftazidime, ceftriaxone, clinical isolates, gram-negative bacteria, gram-positive bacteria 4687. antibacterial activity, comparison ceftazidime, gram-negative bacteria, gram-positive bacteria, Haemophilus influenzae 4688. antibacterial activity, dose-response effects, conferences 10012. antibacterial activity. Enterobacteriaceae 5509. antibacterial activity. Enterobacteriaceae. Pseudomonas aeruginosa, characterization 7144. alcohol fermentation, factors affecting 53.

cytochromes, spectrophotometry, taxonomy 8294.

Kluyverounyces fragilis,
cold tolerance, fatty acid composition, association 3510,
ethanol production, association, inulin fermentation 8770.
ethanol production, fermentation, whey, grain 3443.
fermentation, ethanol production, tubers, Helianthus ruberous 8436,
photoaffinity labelling, phosphorylation sites, protein intiase 7412.
wastewater treatment, lactic acid removal 4031.
whey, fermentation, chemical oxygen demand, methodology 6536.
whey fermentation, processing, biomass, models 5886. antibacterial activity, Haemophilus influenzae, Haemophilus parainfluenzae 8015. antibacterial activity, in vitro, Chlamydia trachomatis 8067. antibacterial activity, kinetics 9846. antibacterial activity, Legionella micdadei, in vitro 8008.

actam antiblotics, (continued)

mibacterial activity, Myxococcus xanthus, cell walls, spore germination 2227.

mibacterial activity, Neisseria gonorrhoeae, isolates, pelvic inflammatory disease 639.

antibiotic 8006-1 9868.

Mucor plumbeus,
colonies precursors, media (culture), association Nonanoic acid 9993.

Mucor pusillus,
milk-clotting enzymes, identification, association, antisera 7457,
post-barvest decay, lipolysis, peanuts 2875.
hlorhexidine, effects on, dental plaque, gingivitis, bacteria, children 9031.
chlorhexidine gluconate, alexidine, effects on, dental plaque, saliva bacteria.
man 1504.
hlorhexidine gluconate, effects on, dental plaque, dental calculus, children
```

Mucor racemosus,

food contamination fungi, Brevibacterium linens production antifungal agents,

Mouthwashes, (continued)

Mucor racemosus, (continued) antifungal activity 6182. B-D-glucosidase, purification, characterization 4907. Mucor ramannianus, Musts, (continued) effects on 2638 wines, apples, starch, dextrin, detection, α-amylase 3442. futagenesis,
Actinomycetes, selection, bleomycetin biosynthesis 9219.
Actinomycetes, selection, bleomycetin biosynthesis 9219.
anaerobic bacteria, 5-niiroimidazoles, antibacterial activity, reviews 8843.
Aspergillus clavatus spores cell walls extracts, mice 5133.
Bacillus subilis, U.V. radation, effects on macromolecular biosynthesis 5440.
bacteria, fusarin C, characterization, biosynthesis, Fusarium moniliforme 3548.
bleomycin, Actinomadura carminata, Streptomyces cremeus 6326.
Clostridium thermocellum, U.V. radation, a radiation,
N-nitroso-N-methyl-N-nitroguandine, genetic engineering 7325.
1,2-dimethylhydrazine, assays, Bacillus subiliti 784.
Salmonella typhimurium, assays, suspension culture 1555.
luttagencity, Mutagenesis. antifungal activity, vomitoxin, zearalenone, biosynthesis, Fusarium culmorum, Fusarium graminearum 3561. Mucor rouxii. ucor rouxu, chitinase, purification, characterization 6603. mycelia, chitin, chelating agents, metals 4939. protein kinase, cyclic AMP binding 4908. xylose, metabolism 898. Mucorales. caffeic acid, antifungal activity, characterization 5452. corn, storage effects 1117.
metabolism, polyols, sugars, Abies alba litter 377.
screening, β-D-glucosidase, exo-1.4-β-glucanase, cellulase 7465. Mutagenicity, aflatoxin B1, nuts 2718. aflatoxin B1, nuts 2718.

Mutagenicity testing,
Ames test, Salmonella, variability, methodology 6471.
assays Escherichia coil SOS repair 9963.
botryodiplodin, Salmonella typhimurium 183.
compounds, mixtures, Salmonella typhimurium 1557.
drinking water, Salmonella typhimurium, Neurospora crassa, Saccharomyces trachea, chickens, avian infectious bronchitis virus antibodies, detection, immunoprecipitation 4074 Beta vulgaris, organic matter, digestion (anaerobic), odor control 7268. Mud flats, cellulolytic microorganisms isolates 9669.

Mugil cephalus, drukting water, Sammoenia typinimurium, neurospora crassas, sactuaromyces cerevisiae 6437.
prophages induction, spices, radiation, Escherichia coli, blood, rats 1516.
proteins, pyrolysis products, gases, Salmonella 3260.
1,1,2,3-lertachloro-2-propene, Salmonella typhimurium, Escherichia coli, CHO fishery products, smoking, growth, Vibrio parahaemolyticus, Escherichia coli, Staphylococcus aureus 8478. Mulches,
ffects on bacteria enzymatic activity, soil 8761.

+mycorhizas, Glomus fasciculatus, Glomus mosseae, effects on Hordeum vulgare
growth 1157.

Activities control. Vesticillium deblica with Pietacia 5104. cells 2383 Mutagens,
DNA damage, damage, suspension culture assays, use, Escherichia coli 1556,
ethyl methanesulfonate effects on Avena sativa disease resistance, crown rust,
Puccinia coronata 5265. polyethylene, use, disease control, Verticillium dahliae wilt, Pistacia 5194 polyethylene, Verticillium dahliae wilt, Pistacia vera, prophylaxis 8670.

Multienzyme complexes, lethality, Phycomyces blakesleeanus 1328. sodium pentachlorophenate, Aspergillus niger 1647. Multicazyme complexes, pyruvate dehydrogenase (lipoamide), chymotrypsin proteolysis, N.M.R., Bacillus stearothermophilus 8351. pyruvate dehydrogenase, Pseudomonas aeruginosa deficient mutant, purification, characterization 893. pyruvate dehydrogenase, reconstitution, Bacillus stearothermophilus 8375. Multiple sclerosis, cerebrospinal fluid, viruses antibodies, detection, complement fixation, man Agrobacterium radiobacter, use, biological control, Lycopersicon esculentum crugal 1858.

Allomyees macrogynus, auxotrophs, isolation, methodology 9982, antibiotic resistance, Excherichia coli, carbenicillin, portoris levels 500.

Aspergilus nidulans, penicillin production, genetic analysis 4718.

Bacillus licheniformis, lysine biosynthesis 1677.

Bacillus subtilis ribosomal proteins, streptomycin, antibiotic resistance 9788. bacteria, antibiotic resistance, pathogenicity 5404.

bacteria, enzymes, colonial characteristics, autoradiography, methodology 1638. bacteria, merolde antibiotics biosynthesis, screening methodology 3994. Brevibacterium, Corynebacterium, Leglutamic acid production, patents 5717.

Candida lipolytica, selection, citric acid production 3740.

Candida tropicalis, metabolism, dodecanedioic acid, production 5716.

Colletotrichum lagenarium, perasexual cycle, anastomosis, role, pathogenicity, anthracnose, Cucurbiaceae 3727.

Colletotrichum lagenarium, prasexual cycle, anastomosis, role, pathogenicity, Cucurbitaceae, 3728. Agrobacterium radiobacter, use, biological control, Lycopersicon esculentum crown 9051 Multiplicity of infection, Zea mays, stunt, Spiroplasma citri, maize mosaic virus, Jamaica 5238. Mumps virus, chick embryos adaptations, persistent infection, Vero cells, role, defective-interfering particles 2348.

immunoglobulin G, immunoglobulin M, detection, solid phase methods enzyme Immunogioouni O; Immunogioounin M, caleccioni, souin piase meinous en immunoassay 5468.
Immunogiobulin M, radioimmunoassay, solid phase methods 5624.
Muramyl-pentapeptide carboxypeptidase, Steptomyces, binding monobactams 8328. Colletotrichum lagenarium, pigments, relationship, plants membranes penetration characterization, Escherichia coli 8405.

Murine leukemia virus,
mice infection monitoring, bioassays, use glycoproteins cell surface receptors 9359. 73.33. cowpea mosaic virus, genetic analysis, pathogenicity, Vigna unguiculata 3619, defective, prephenate dehydratase, pheA gene 2591. drug resistance, bacteria, tuberactinomycin derivatives effects on protein biosynthesis 8091. biosynthesis 8091. Escherichia coli, antibiotic resistance, negamycin 8809. Escherichia coli, detergents sensitivity, use, DNA recombinants 2430. Escherichia coli, methylglyoxal drug resistance, biosynthesis, release, glutathione 1286. bunchy top, viruses, treatment, picloram 9615.

finger rot, Phytophthora nicotiannae, morphology, symptoms, South Africa 8617.

leafspot, Mycosphaerella musicola, disease control, fungicides 6037.

leafspot, Mycosphaerella musicola, Mycosphaerella musace, fungicides, disease control 960t, Mycosphaerella musicola, Mycosphaerella musace, fungicides, disease Escherichia coli, overproduction, D-serine dehydratase, β-D-galactosidase, chemostats 1699. Musa paradisiaca sapientum, fruit rot, Traca specimum, fruit rot, Traca specimum, fruit rot, Traca specimum, (United Rep.) 290.

Musa paradisica, Escherichia coli, phenylalanine biosynthesis, continuous culture 7382. Escherichia coli, R factors Rms201, maintenance, antibiotic resistance ampicillin food, tostones, nutritive value, isolation, Bacillus, Penicillium 965 Musa sapientum, Escherichia coli, serine effects on drugs activity 7933 Escherichia coli, streptomycin resistance, role, gene Irs, R factor R1 7874. forms, elongation factor Tu, amino acids substitution characterization, Escherichia coli 4181. Musa sapeentum, infection, Mycosphaerella musicola, disease control, benomyl, carbendazime+mancozeb 3798.
wilt, Pseudomonas solanacearum, host range, biochemical characteristics, phage typing 7713.
Musa textitis,
wilt, Pseudomonas solanacearum, host range, biochemical characteristics, phage typing 7712. Lactobacillus bulgaricus, Lactobacillus casei, milk fermentation 5062 Lycopersicon esculentum, disease resistance characterization, Rhizopus stolonifer Micromonospora rosaria, biosynthesis pathways, rosaramicin derivatives 6314. Micromonospora sagamiensis, biosynthesis, gentamicin, sagamicin 6268. Micromonospora sagamiensis, biosynthesis, 2-hydroxysagamicin, antibacterial typing 7713.

Musca domestica,
biological control, Bacillus thuringiensis var.israelensis 7305. activity 6315. Muscles, Monascus kaoliang sp.nov., pigments, biosynthesis 4948. Nicotiana tobacum, potyvirus infection, disease resistance effects on pathogenesis 8693. fish, extracts, Escherichia coli growth, trimethylamine N-oxide reduction 3503. proteins solubility, infection, Pseudomonas putrefaciens, Lactobacillus casei, autolysis, effects on 4330. pathogenesis 8693.

Nocardia butanica, L'serine biosynthesis, nole magnesium phosphates 5718.

Nocardia lactandurans, Streptomyces griseus, recombination, cephamycins biosynthesis, screening 7216.

Nocardia, papaverune biodegradation pathway 9274.

Oudennastella mucida, association, mucidin biosynthesis 8055.

Penicillium chrysogenum+ Aspergillus nidulans, penicillin biosynthesis 3979. phage 80%, antigens, Corynebacterium diphtheriae toxins, detection, plaque assay, enzyme-linked immunosorbent assay 4107.

Phoma, soil isolates, selection, cellulose degradation 4308.

Phytophthora capsici, Pythium ultimum, U.V. radiation metalaxyl induction drug resistance 7908.

purA gene, Salmonella, antibicitic metistance, polypovita, insign departs. autorysts, errects on 4350.
Issues, chickens, Salmonella, adherence, sodium chloride, effects on 1791.
Mushroom poisoning.
Leptota neomastoidea, man, Japan 3471.
Mushroom worker's lung, etiology, immunoprecipitation, relationship, airborne microorganisms, dust, composts 989. Iushrooms,
Clostridium botulinum, toxins, heat inactivation 4393.
Composts, association fungi, growth conditions, heat resistance 5414.
composts, composting duration effects on nitrogen content 138.
culture, bacteria, fungi, composts, dust, enumeration 2015.
culture, patents 7367.
fermentation brine, role Lactobacillus 4360.
pathogens, Mycogone permiciosa, Verticillium fungicola, epidemiology 7725.
fuskmedons, Mushrooms, pmrA gene, Salmonella, antibiotic resistance, polymyxin, ionic strength effects on 1249. on 1249.
prephenate dehydrogenase, purification, characterization, plasmids transformation, Escherichia coli 8305.
Pseudomonas aeruginosa, antibiotic sensitivity testing, antibiotic synergism, carbenicillin, kanamycin 3080. post-harvest decay, Fusarium roseum, Diaporthe melonis, disease control, fungicides+hot water, immersion 2872. carbenicillin, kanamycin 3080.

Pseudomonas, cephalosporanic acid amidase, isolation, activity 4249.

Pseudomonas, cephalosporanic acid amidase biosynthesis 1717.

Pseudomonas, penicillin amidase, purification, characterization 1719.

Pseudomonas putida, selection, dehalogenase, 2-monochlorobutanoic acid, 2-monochloropropionic acid, induction, continuous culture 1695.

Rizzobium, characterization, nodulation, nitrogen fixation 1197.

Rizzobium, nitrogenase enzymatic activity, Vigna radiata var.aureus effects on 2650. Musts. fusts,
Botrytis cinerea, cyclic AMP effects on biosynthesis, glycerol, polysaccharides,
gluconic acid 70.

+cyclic AMP, Botrytis cinerea fermentation, effects on wine quality 925.
fermentation kinetics, Schizosaccharomyces pombe. Saccharomyces cerevisiae 2
grapes, yeasts, fermentation, organic acids, biosynthesis, factors affecting 924.
oxidation, color stabilization, wine, Botrytis cinerea, infection, grapes.

220

Mutants, (continued) futants, (continued)
Rhizobium trifolii, interaction, nodulation, Trifolium repens 3858.
Racharomyces cerevisiae, catabolite repression resistance, use, whey fermentation 9294.
Salmonella, flagella, isolation 2403.
Salmonella, thyphimurium, gluatamine synthetase characterization 3405.
selection, induction, continuous culture 1695.
Staphylococcus, protein A production, purification 4874.
Streptococcus lactia subsp. diaectilactis, Lactobacillus bulgaricus, Lactobacillus case, fatty acids biosynthesis, milk 3277.
Streptomyces coeruleorubidus, conversion, anthracyclinones 644.
Streptomyces fradiae, fermentation, 5-O-mycarosyftylactone, tylosin, characterization 5861.
Streptomyces fradiae, Sadenosyl-L-metholionine:macrocin O-methyltransferase. Mycobacterium, (continued) isolation, identification, cultural characteristics, clinical aspects, microscopy, methodology 9089, isolation, milk 7569, lisolation, milk 7569. Isolation, milk 7509. lipids biodegradation 9259. liquid culture, growth patterns, comparison, carbon sources 8209. media (culture), characterization, association leprosy 6515. media (culture), characterization, association leprosy 6515. media (isolation) 9088 media (isolation), methodogy 6512. maxed culture, Cyanophyta, hydrocarbons biodegradation 9749. serotyping, agglutination 4840. staining, methodology, detection, viability 9959. susceptibility, antimicrobial agents, dilution tests 8223. variants, biodegradation, sitosterol, cleavage, side chains 8469. characterization 5861.

Streptomyces fradiae, S-adenosyl-L-methionine:macrocin O-methyltransferase, tylosin biosynthesis, characterization, assays 2253.

Streptomyces fradiae, tylosin biosynthesis, characterization 2271.

Streptomyces griseus, regulation, sporulation, biosynthesis, streptomycin 1403.

Streptomyces griseus, streptomycin production blocking, role, factor A 6265.

Streptomyces griseus, streptomycin production blocking, role, factor A 6265.

Streptomyces griseus, streptomycin production blocking, role, factor A 6265.

Streptomyces griseus, streptomycin production blocking, role, factor A 6265.

Streptomyces griseus, streptomycin production blocking, role, factor A 6265.

Streptomyces griseus, streptomycin production blocking, role, factor A 6265. susceptionity, antimicronia agents, sincard, selevage, side chains 8469.

Mycobacterium avium,
antibiotic sensitivity testing, drug sensitivity testing 4736.

antibiotic sensitivity testing, drug sensitivity testing 4736.

antibiotic sensitivity testing, rifamycin-raminoglycoside antibiotics+ethionamide,
ethambuoti 4735.

drug resistance, association, cell walls structure 3011.

in vivo growth conditions, heat inactivation, meat 179.

in vivo growth conditions, heat inactivation, meat 179.

phage typing, methodology 3312.

serotyping, agglutination 4840.

Mycobacterium avium-intracellulare,
antibacterial activity, ethambutol 6160.

Mycobacterium avium-intracellulare,
antibacterial activity, antiseptics 7911.
detection, enzyme-inked immunosorbent assay, cattle 789.
identification, mass spectroscopy, pyrolysis products 4841.

Mycobacterium tuberculosis, identification, pyrolysis products 2445.

Mycobacterium tuberculosis, identification, pyrolysis products 2445.

Mycobacterium tuberculosis, identification, pyrolysis products 2445. conversion, adramycia 1747. Streptomyces rimosus, oxytetracycline biosynthesis, gene mapping 2248. Thiobacillus ferrovidans, physiology, copper ions, tolerance 5416. Trichoderms viride, cellulase biosynthesis 7471. Vibrio cholerae, lipopolysaccharides, chemical composition, antigenic characteristics 8337. characteristics 8537,

characteristics 8537,

characteristics 8537,

characterization 5206.

yeasts, antibiotic resistance, mitochondria, DNA 7120.

Mutationa,

analysis, Colletotrichum coffeanum, benomyl sensitivity, tolerance 9771.

antibiotic resistance, rifampicin, Haemophilus influenzae 7888.

Colletotrichum coffeanum, rate, association, benomyl tolerance 5419.

Escherichia coli, rRNA operons, erythromycin antibiotic resistance 9763.

frequency, detection, antibiotic resistance, neomycin, kanamycin, Bacillus thuringiensis. Bacillus popilliae 3010.

Triticum aestivum Pm gene, effects on Erysiphe graminis f.sp.tritici pathogenicity 9405.

Muttoa,

isolation methodology, Campylobacter fetus subsp.jejuni 4823.

Mutualism,

Mutualism, Mycobacterium brevicale, association, Anabaena variabilis, biodegradation, oil, growth, factors affecting Mycobacterium butyricum, galactonate dehydratase, purification, characterization 2571.
galactonate dehydratase, purification, characterization 4217. galacionate dehydratase, purification, characterization 421 Mycobacterium chelonei, antibiotic sensitivity testing, drug sensitivity testing 4736. drug resistance, formaldehyde 5406. mitomycin C, identification, use, specipibility 4633. sulphonamicks, antibacterial activity 4622. Mycobacterium chelonel subsp.abccessus, defection, radiometry 4124. Isolation methodology, Campy, Glycine max 9381.
Glomus fasciculatus, relationship, Glycine max 9381.
Glomus fasciculatus, relationship, Glycine max 9688.
Mycaminosol tylonolide,
derivatives, synthesis, antibacterial activity, structure-activity relationships,
gram-negative bacteria 6170.
Mycaminosolitylonolide, Mycaminosytylactone, derivatives, synthesis, antibacterial activity 5545.

50-Mycarosyltylactone, characterization, Streptomyces fradiae mutants fermentation 5861.

54-Mycarosyltylactone, Streptomyces fradiae, antibacterization, Streptomyces fradiae, structure, X-ray crystallography 8960.

Mycelia,

Assolyblic furfurences aluxogen, isolation, characterization 897. detection, radiometry 412e.

Mycobacterium citreum,
antibiotic resistance, tetracycline, in vitro 484.

Mycobacterium flavum,
nitrogen fixation, measuring techniques, use, acetylene reduction 8752.

Mycobacterium fortultum,
antibiotic sensitivity testing, β-lactam antibiotics, aminoglycoside
antibiotics 5490.

antibiotics 5490. fycelia,
Ascobolus furfuraceus, glycogen, isolation, characterization 897.
Basidiomycetes, fruiting, inhibition, roots, plants 9687.
characterization exo-1,4-o-Dejucosidase immobilized enzymes, Penicillium chrysogenum 8323.
Colletoritchum graminicola, lysis, soil 7796.
Curvularia lunata, spores, 11B-hydroxylase hydroxylation, gels media (culture) 4924. antiolotics 3-920, antiblotic sensitivity testing, drug sensitivity testing 4736, drug sensitivity testing, photometry 8836. liquid culture, growth patterns, comparison, carbon sources 8209, mitomycin C, identification, use, susceptibility 4633, sulphonamides, antibacternia activity 4623. sulphonamides, antibacterial activity 4622.

Mycobacterium gordonae,
identification, photochromogenicity 1628.
identification, thin-layer chromatography 4846.
Mycobacterium hyorhinis,
contamination, neuroblastoma cells, cell lines, elimination, passage, mice 9954.
Mycobacterium intracellular, arug sensitivity testing, 4736.
antibiotic sensitivity testing, drug sensitivity testing 4736.
antibiotic sensitivity testing, framycin+aminoglycoside antibiotics+ethionamide,
ethambutol 4735. Cumicol 9228. fungi, estimation, agar films, soil, methodology 4166. fungi, yeasts, formation, incidence, leaf litter, soil, forests 1155. microorga 2047.
Fimbristylis dichotoma, Imperata cylindrica, Paspalum vaginatum, Australia 1165.
forests wetlands, USA, Florida, acetylene reduction, nitrogenase activity 7093.
Frankia, plants isolates, in vitro 2960.
Frankia, plants isolates, in vitro 2960.
Glycine max, association, allantoin biosynthesis, Rhizobium japonicum 5371.
Glycine max, sasociation, allantoin biosynthesis, Rhizobium japonicum 5371.
Glycine max, interaction, Rhizobium 7829.
Glycine max, interaction, Rizobium 7829.
Glycine max, interaction, Scutellonema cavenessi± Glomus mosseae 8750.
Glycine max, nodules 1199.
Glycine max, Pisum sativum, roots, nodulation 2049.
Glycine max, Rhizobium japonicum, phosphorus, Glomus fasciculatus, effects on 1217.
Glycine max, Rhizobium japonicum, phosphorus, Glomus fasciculatus, effects on 1217. Serratia marcescens, effects on, humic acids, soil, Acer saccharum, Picea mariana 1217.

Glycine max, Rhizobium japonicum, Trinidad 1167.

Glycine max, Rhizobium, strains effects on 3871.

Graminae, Phizosphere, USA, Texas 443.

growth, Azospirillum brasilense, nitrogen fixation, effects on 2972.

growth, Medicago trunculais, Graminae competition, phosphate levels, effects on soil amendment, effects on, Sclerotium rolfsii, wilt, incidence, Solanum tuberosum 1943 soil amendment, herbicides, effects on straw decay 5386. soil applications, effects on, Sorghum vulgare, protein composition, leaves, grain, nitrate reductase 1231. soil loss, role, transformation, nitric oxide, nitrous oxide, soil microorganisms 1213. soil amendment, effects on, Sclerotium rolfsii, wilt, incidence, Solanum 2968.
growth, nitrogen sources, soil characteristics, Medicago sativa 8747.
Hordeum vulgare, nitrogenase enzymatic activity in vitro 2066. hosts specificity, Rhizzobium trifolii, isolation 437.
incidence, soil, Malaysia, distribution 2067.
Inga jinicuii 1183.
Inga jinicuii, soil nutrients effects on 1184.
Klebsiella oxytoca, isolates, characterization, roots, Triticum 2061.
Klebsiella corumoniae, nif gene, gene manipulation, plants 2043.
land reclamation, soil, nutrient status, nodules, Leucaena leucocephala, Tanzania 9709. effects on Macrophomina phaseolina infection, Phaseolus vulgaris, soil nutrients, eff Triticum 1859 Triticum 1859.

transformation, soil amendment, sewage sludge, soil properties effects on 7831.

transformation, wastewater treatment 648.

uptake, nodules, Glycine max, association, amino acids biosynthesis, Rhizobium japonicum 4557.

uptake, transport, Glycine max, nitrogen fixation, effects on 9731.

wastewater treatment, bacteria, enumeration, role, decomposition, nitrification, denitrification 5558.

(ltrogen assimilation, soil amendment 5367.

(ltrogen balance, composition, veats, feeds, association, nutritive value 152. 9709 legumes, measuring techniques 2048. legumes, Micholium symbiosis, shales 6097.
Leguminosae, Australia 1178.
Leguminosae, nodulation, Rhizobium, bost-parasite interactions 7816.
Leguminosae, Rhizobium, Thailand 1176.
measuring techniques, use, acetylene reduction, bacteria 8752.
mechanisms. micropragnisms—solution 9727 composition, yeasts, feeds, association, nutritive value 152. iltrogen cycle, clay industrial wastes, ammonification, Agrostis tenuis, Festuca rubra, Trifolium measuring techniques, use, acetylene reduction, bacteria 8752.
mechanism, microrganisms, evolution 9722.
Medicago sativa, phosphorus, lime, effects on 1179.
Medicago sativa, conssium fertilizers effects on 436.
Medicago sativa, Rhizobium meliloti, soli pH effects 447.
Medicago sativa, Rhizobium meliloti, sulfur, nitrogen, effects on 1211.
Medicago sativa, Rhizobium meliloti, sulfur, nitrogen, effects on 9724.
microorganisms, association, nitrogenase, adenosinetriphosphatase, reviews 7087.
microorganisms, coological evaluation, herbicides effects on 6096.
microorganisms, Oryza sativa, flooded soils 2967. clay industrial wastes, ammonification, Agrostis tenuis, Pesinca ruora repens 5371 microorganisms, population dynamics, Canada 9720. denitrification, soil properties, soil microorganisms 7081. denitrification, thermodynamics, soil microorganisms 5368. disturbance, industrial wastes, soil chemistry 7074. forests, paddy fields, nitrification, Africa, West 7075. forests soil, USA 6086. Glycine max, symbiosis, nitrifying bacteria, effects on 5358.

Nitrogen fixation, (continued)
airrogen cycle, disturbance, industrial wastes 7074.
nitrogen cycle, savannahs, agricultural ecosystems, Nigeria 7085.
nitrogen-fixing bacteria, manganese sulfate effects on 9725.
nitrogen-15 levels, plant communities, environmental conditions, USA, California 8756. Nitrogen sources, (continued) effects on, Pusarium graminearum, root rot, Triticum aestivum 1064. effects on, nitrogen fixation, nodules, Pisum sativum 7089. effects on, Pseudomonas, bacteria, soil isolates, naphthalene biodegradation 2040.
respiration, bacteria, populations, roots, Triticum 2065.
effects on, Sclerotium rolfsii, oxalic acid production 6551.
feeding trials, effects on, rumen, microorganisms, protein biosynthesis, sheep
1813. 8/56.

irrogenase, nitrate reductase, activity, nodules, Phaseolus vulgaris, fertilizers, effects on 2970. introgenase soil, Phalaris arundinacea, Pharagmites australis, salt marshes 7086. nodulation, Arachis hypogaea chlorosis, Senegal 7078. nodulation, drught stress, Prospois 7848. nodulation, Glycine max, nitrate, effects on 2957. Trifolium subterrapeum 75 Leflutamine, L'asparagine, L-threonine, media (culture), Pseudomonas tomato, cultural characteristics 7337. Hordeum vulgare, guttation fluids, association, fungi spore germination 6800. isoburylidine diurea, nutrients digestion, protein biosynthesis, rumen, cattle 5895. nodulation, Glycine max, nitrate, effects on 2957.
nodulation, Glycine max, nitrate, effects on 2957.
nodulation, phosphorus uptake, mycorrhizas, growth, Trifolium subterraneum 2953.
nodulation, Rhizobium trifolii, Trifolium repens, fungicides, effects on 2955.
nodulation, Rhizobium trifolii, Trifolium repens, fungicides, effects on 2955.
nodulation, seasonal variations, Frankia, Myrica gale 9710.
nodulation, variation, Rhizobium trifolii, strains, Trifolium pratense 9716.
nodules, biomass, Alnus rubra, Alnus sinuata, forests, Canada 2057.
nodules, Pisum sativum, nitrogen sources effects on 7089.
nodules, relationship, dry weight distribution, Trifolium repens 434.
Oryza sativa, soil, ammonium, effects on 441.
pentachlorophenol effects on, Azotobacter vinelandii 4555.
phosphate, mobilization, Glycine max, Medicago sativa 2072.
phyllosphere, nitrogen-fixing bacteria, surveys, India 4561.
Pisum sativum, association, fruits growth, apical apparatus 7812.
Pisum sativum, association, ruits growth, apical apparatus 7812.
Pisum sativum, association, selection, photosynthesis carbon dioxide gas exchange 5570. media (culture), Candida scottii, effects on, growth, protein composition 462. metabolism, chickens, feeding trials, single-cell protein, Candida utilis, effects on 2711. interabolism, chickens, feeding trials, single-cell protein, Candida utilis, effects on 2711.

nitrogen fixation, growth, soil characteristics, Medicago sativa 8747.

nodulation, Rhizobium, association, dry matter distribution, Glycine max 5365.

Pseudomonas, Klebsiella pneumoniae, triazine 2069.

relationship, dry weight distribution, Trifolium repens 434.

role, Streptomyces rimosus, production, oxytetracycline 1755.

Streptococcus cremonis growth, milk 990.

Nitrogen trichloride,
accumulation, association, chlorination, swimming pools 4044.

Nitrogen-fixing bacteria,
Actinomycetes, soil incidence, association Alnus incana 8744.
Angiospermae, aquatic environment, seasonal variations 8740.

cobalt chloride effects on, media (culture) 9723.

foliar applications, effects on, growth, Oryza sativa 2969.

foliar applications, yield, Triticum aestivum 6087.

free-living, nitrogen fixation, thizosphere, plants 9712.

manganese sulfate effects on nitrogen fixation 9725.

nodulation, Poophocarpus tetragonolobus, water regimes effects on 4547.

ptyllosphere, nitrogen fixation, surveys, India 4561.

potassium effects on nitrogen fixation, Medicago sativa 6089.

Pseudomonas like, incidence, plants distes, plant breeding, Zea mays 8741.

soil isolates, identification, computer applications 8206.

sparina alterniflora, carbon metabolism 3856.

storage, viability 9943.

Nitrogen-15;

levels, plant communities, nitrogen fixation, environmental conditions, USA, radioisotopes, use, nitrogen fixation assays 439. Dotassium, effects on, Medicago sativa 6089.
Pseudomonas, foliar applications, yield, Oryza sativa 8743.
radioactive labelling, methodology, Phascolus vulgaris, Trifolium arvense,
Trifolium badium 5356.
relationship, hydrogen metabolism, nodules, Rhizobium leguminosarum+Pisum sativum
1210. relationship, nitrate reduction, Phaseolus vulgaris nodules, Rhizobium phaseoli relationship, nitrate reduction, Phaseolus vulgaris anodules, Rhizobium phaseoli 4.38.

Rhizobium, Arachis hypogaea chlorosis effects on 3877.

Rhizobium solation, evaluation, South America 432.

Rhizobium siponicum, coal adsorption, incoulation, Glycine max 8746.

Rhizobium apponicum, colliar applications, (ethicalistic, Glycine max 6099.

Rhizobium apponicum, colliar applications, (ethicalistic, effection 1208.

Rhizobium apponicum, modulation, Glycine max, 8754.

Rhizobium apponicum, modulation, Glycine max, 801 moisture effects on 7815.

Rhizobium apponicum, modulation, chycine max, 801 moisture effects on 7815.

Rhizobium apponicum, nodulation, characterization 3872.

Rhizobium japonicum, nodulation, characterization 3872.

Rhizobium leguminosarum, ryigna sinensis, Maii 7071.

Rhizobium leguminosarum, Pisum sativum, photosynthesis, association 4562.

Rhizobium leguminosarum, Rhizobium mellioti, nodules, Vicia viillosa, Melilotus officinalis, drought effects on, soils (saline) 1190.

Rhizobium, Lotus pedunculatus, nutrient enrichment effects on 1192.

Rhizobium mellioti, Medicago sativa cultivars effects on 4533.

Rhizobium mutants 1197.

Rhizobium mutants 1197. radioisotopes, use, nitrogen fixation assays 439. Nitrogenase, activity, bacteria, nitrogen fixation, salt marshes, Phalaris arundinacea, Pharagmites australis 7086. activity, forests wetlands, USA, Florida, nitrogen fixation, acetylene reduction 7093. activity, nitrogen fixation, nodules, Phaseolus vulgaris, fertilizers, effects on 2970. Rhizobium meliloti, Medicago sativa cultivars effects on 4533.

Rhizobium mutants 1197.

Rhizobium, nitrogen cycle, agricultural practices, semiarid environments 7073.

Rhizobium, nitrogenase, nutrient requirements 9713.

Rhizobium, nodulation, Arachis hypogaea, yield 7817.

Rhizobium, nodulation, incuculation, Glycine max, Senegal 7076.

Rhizobium, nodulation, inoculation, Egymen max, Senegal 7076.

Rhizobium, nodules, association, Glycine max, esceds 7079.

Rhizobium, nodules, association, Glycine max, Vigna unguiculata, nitrogen fixation, association, phosophorus requirements 454.

Rhizobium, phaseoli, incuculation, phaseolus, soil 8742.

Rhizobium, phaseoli, sociation, phaseolus, soil 8742.

Rhizobium, Phaseolus vulgaris, reviews 1181.

Rhizobium, ristinas variation, Phaseolus vulgaris 9735.

Rhizobium trifoli indulation, fingicides inhibition, Trifolium repens 8748.

Rhizobium trifoli indulation, Trifolium repens, Glomus tenuis, phosphorus fertilizers effects on 9711.

Rhizobium, rigna unguiculata 1194.

rhizosphere, Oryza sativa 5353.

Robinia pseudoasecia, Rhizobium nodules, assocation, spring 7825.

salt marshes, USA, Louisiana 431.

seasonal variations, Spartina alternifora 2074.

sediments, British Isles, association sulfate-reducing bacteria 6100.

soil aggregates size effects on 6095.

soil microorganisms, thidiazuron effects on, crops 1216. activity, Oryza sativa rhizosphere, paddy fields, hexachlorocyclohexane effects on 1225. association, microorganisms nitrogen fixation, reviews 7087. Azospirillum lipoterum, nitrogen fixation, seasonal variations, Panicum maximum var trichoglume 5361. var trichoglume 5361.

enzymatic activity. Aeschynomene americana, soil moisture effects on enzymatic activity, introgenase, Aeschynomene americana, soil moisture effects on 1196.

enzymatic activity, Arospirillum, Azotobacter, incidence, Hordeum vulgare, soil, enzymatic activity, Triticum aestivum, Sorghum nigricans, +Rhizobium "cowpea", +Azospirillum lipoferum 1186.

enzymatic activity. Vigna mungo, potassium dihydrogen ortho phosphate, ammonium nitrate, effects on 2044.

Frankia, activity. nolars icolarse in view 2000. nitrate, effects on 2044. Frankia, activity, plants isolates, in vitro 2960. iron protein, amino acid sequence, Azotobacter vinelandii, comparison Clostridium pasteurianum, Anabaena, Klebsiella pneumoniae, phylogeny 5722. iron protein, purification, characterization, Rhodospirillum rubrum 8333. iron proteins, inactivation, characterization, Rhodospirillum rubrum 4221. C.D., Klebsiella pneumoniae 3396. iron protein, inactivation, characterization, Rhodospirillum rubrum 4221. on plydenum-iron protein, TAT Prole mechanisms, Klebsiella pneumoniae 8319. molybdenum-iron protein, magnetic susceptibility, N.M.R., Azotobacter vinelandii 6540. 6540 6340.

molybdenum-iron protein, X-ray diffraction, Clostridium pasteurianum, Azotobacter vinelandii 7430.
mitrogen fixation, Hordeum vulgare, in vitro 2066.
phototrophic bacteria, , dissolved oxygen, effects on 1697.
purification, characterization, Rhodospirillum rubrum 7424.
Rhizobium, acetylene reduction, Glycine max 3867.
rhizobium, acetylene reduction, Lycopersicon esculentum, in vitro 2954.
Rhizobium, activity, isolates, Arachis hypogaea, Vigna sinensis 2939.
rhizobium, procession esculentum 2954.
Rhizobium matunst, enzymatic activity, Vigna radiata var aureus effects on 2950.
Rhizobium mutrogen fixation, nutrient requirements 9713. soil microorganisms, thidiazuron effects on, crops 1216.
soil properties, reclaimed land, shales, enzymatic activity, soil microorganisms 2056. soil surfaces, savannahs, Cyanophyta, Nigeria 7072. symbionts, host plants, infection, recognition, energetics, books, conferences Symbionis, noist plants, intection, recognition, energetics, couns 8274, symbiosis, Almus glutinosa, Almus rubra, British Isles 2063. technology, Leguminosae-r Rhizobium 7830. Trifolium pratense, cultivation, role Rhizobium trifolii 7833. Trifolium repens, Trifolium arvense, Rizobium trifolii 444. Vigna mungo, daylength effects on 1173. Streptomyces rimosus, mutants, biosynthesis, gene mapping 2248.

treatment, bacteria infection, Gramineae, symptoms 9446.

treatment, western X disease, Prunus avium, disease control, Mycoplasma 6828. Frageria virginiana, meristem tip culture 3743. ammonium soaps, use, single-cell protein production, Candida, Saccharomyces lipolytica 8299. Palm wine,
yeasts occurrence, Philippines 927.
Palmitoyl-CoA hydrolase,
purification, characterization, Mycobacterium smegmatis 4253. Oysters, ingestion, gastroenteritis, Norwalk agent, case reports, man 4340. Vibrio cholerae, decontamination, chlorine, washing water 5923. Pamamycin, antibacteria effects on, sludges, physical characteristics, wastewater treatment 6361. formaldehyde comparison, decontamination, antibacterial activity, isolation wards terial activity, mechanisms, Staphylococcus aureus 1439. Panaeolina, psilocybin 5113.

Panaeolus,

psilocybin 5113.

Panagrellus redivivus,
anthelmintic agents, Deuteromycetes, effects on 8695.

5601.

Olea europaea oils, antibacterial activity 9794.

Ozone, antiviral activity, tobacco mosaic virus, effects on RNA degradation 5469. bacteria, disinfection, waste water 1480.

D	Parasites,
Pancreas, pigs, α-amylase inhibitors, Streptomyces griseosporeus, isolation,	Leptotrochila porri+Allium porrum, characterization, new records, New Zealand
characterization 2634.	1098.
Panicim coloratum,	Sporobolus ovary, Bipolaris, isolation, taxonomy 9411. Parasitism,
Azotobacter nitrogen fixation, nitrogen levels effects on 7065.	Erysiphe graminis f.sp.tritici, Triticum aestivum, Pm gene mutation effects on
Panicum maximum, ergot, Claviceps maximensis, new records, Australia 9415.	pathogenicity 9405.
Panicum maximum var.trichogiume.	Glomus fasciculatus, relationship, Glycine max 9381.
nitrogenase, nitrogen fixation, seasonal variations, Azospirillum lipoferum 5361.	Giomus fasciculatus, relationship, Glycine max 9688. heritability, Helminthosporium maydis leaf blight, Zea mays 9449.
Panicum miliaceum, India, Pyricularia grisea, blast 6790.	Peronospora parasitica+Albugo cruciferarum galls, Brassica campestris 6906.
nitrogen, content, growth, Azospirillum brasilense, nitrogen fixation, effects on	Parathion,
2062.	Pseudomonas diminuta, biodegradation 5907.
Papaver somniferum,	Parathion hydrolase, production, bacteria, culture 23.
downy mildew, Peronospora arborescens, Canada 3717. Papaverine,	Pseudomonas, enzymes activity, characterization 5730.
biodegradation pathway, Nocardia mutants 9274.	Parenchyma.
effects on, Clostridium perfringens enterotoxins biosynthesis, in vitro 8560.	plasmolysis, Erwinia amylovora infection, effects on apples leaves ultrastructure
Papaya mosaic virus,	4436. Parenteral nutrition,
Carica papaya, disease transmission, Aphididae, Sri Lanka 2804.	fluids, sterilization, standards 8899.
Cucurbita pepo 2855. infection, Ullucus tuberosus, elimination, association, meristem tip culture±	Pargyline,
vidarabine antiviral activity 862/.	Cunninghamella echinulata transformation, models, Mammalia 4303.
mixed infection, Ullucus tuberosus, tobacco mosaic virus, potyvirus,	Parks, Canada, check lists, fungi association plant diseases 9350.
characterization 8676.	Paromomycin.
decomposition, Pleurotus ostreatus 2659.	derivatives, synthesis, antimicrobial activity, patents 7234.
Edgeworthia papyrifera, retting, Bacillus 3457.	Parthenium,
wastes, acids hydrolysis, association, single-cell protein production, Scytalidium acidophilum 4877.	disease resistance, Verticillium dahliae infection, pathology 6942. Parthenium argentatum,
Paper mills,	+Glomus, growth, nutrition 2933.
wastewater treatment, activated sludge+oxygen 4765.	Parvovirus,
Papilloma virus (human),	disinfection, sewage sludge, use, calcium oxide, methodology 8101.
antigens, man, cervix, condylomatosis, detection, immunoperoxidase test 8179.	inactivation, +adjuvants, production, vaccines, antigenicity, vaccination, dogs, clinical trials 4019.
Papio cynocephalus, kidney cell culture, aluminum chloride, antiviral activity, simian foamy virus	Parvovirus (canine),
6201.	vaccines, development, dogs 737.
Papovavirus,	Parvovirus (porcine),
infectivity, measurement, assays, in vitro, methodology 6457.	disinfectants, antiviral activity 1341. Paspalidium punctatum,
Papua New Guinea, viruses mosaic disease, Phaseolus aureus 8593.	infection, Phyllachora punctum, India, new records 4442.
Papulospora,	Paspalum distichum,
decay, wood, Pinus resinosa, resins, effects on 1146.	infection, Phyllachora paspalicola, India, new records 4442.
Parabiosis,	Paspalum urvillei,
hosts cells, pathogens cells, cell culture methodology 4061. Paracoccidioides brasiliensis,	rhizosphere, nitrogen fixation, USA, Texas 443. Paspalum vaginatum,
cells, viability, oxygen, role 3329.	nitrogen fixation, Eucalyptus tetrodonta forests, Australia 1165.
Paracoccas denitrificam,	Passage,
cytochrome c, isolation, characterization 2521.	nuclear polyhedrosis virus, Trichoplusia ni, Galleria mellonella, effects on
cytochrome cd1, heme environments, Raman spectroscopy 4876. nitrous oxide reductase, purification, characterization 2595.	virulence 45. Passive hemagglutination,
superoxide dismutase, purification, characterization 5769.	detection, bovine rhinotracheitis virus antibodies, cattle 1520.
Paradiacheopsis,	detection, rubella virus antibodies, man 6439.
growth, leaf litter 5905.	diagnosis, syphilis, man 4123.
Paraffin, biodegradation, gram-negative bacteria, screening 8471.	screening, antibodies, varicella-zoster virus, blood donors, automated methods, man 3205.
N-Paraffin,	Passive reverse hemapplutination.
levels, pigs, Candida lipolytica single-cell protein effects on 148.	Passive reverse hemaggiutination, antibodies assays, Salmonella enteritidis, gastroenteritis, man 1595.
Parafflin,	detection rotavirus (human) 8189.
effects on, radiation sensitivity, Bacillus pumilus, spores 2156.	viruses infection diagnosis methodology, man 9041.
Paraformaldehyde, marine environment, sand, effects on microorganisms 9018.	Pasteurella, animals isolates, identification, API test 1585.
Paraguay,	antibacterial activity, antibiotic HR 756, cephalosporins 1449.
Gossypium hirsutum, infection, Fusarium oxysporum f.sp.vasinfectum,	antibacterial activity, antibiotic HR 756, cephalosporins 1449. bacteriocinogenic factors, characterization 3019.
Colletotrichum gloeosporoides var.cephalosporioides, Xanthomonas malvacearum 2851	serotypes, identification, indirect hemagglutination 3266.
new records, wilt, Fusarium oxysporum f.sp.vasinfectum, strains, Gossypium 6875.	Pasteurella haemolytica, airborne microorganisms, cattle houses, weather effects on 6402.
Parainfluenza virus,	animal isolates, antibiotic resistance 7880.
infection, cell culture, kidney, monkeys, susceptibility, trypsin, effects on	cytotoxicity, cattle leukocytes 4397.
2355.	cytotoxins, production, dialysis fermenters, design 8557.
Parainfluenza virus 1, chickens infection, diagnosis, antibodies, association yolk 6454.	Pasteurella multocida, animal isolates, antibiotic resistance 7113.
detection, enzyme immunoassay, radioimmunoassay, nasopharynx, man 1523.	animal isolates, antibiotic resistance 713.
Parainfluenza virus 2,	media (culture), agitation, methodology 9098.
detection, enzyme immunoassay, radioimmunoassay, nasopharynx, man 1523.	peptidoglycans, structure 3419.
Parainfluenza virus 3, amidinohydrazone, N1-phenyl-4-formyl-3-(ethylthio)carbonylpyrrole(I), antiviral	vaccines, antigenicity, development 1458. Pasteurization,
activity 7187.	beer, quality control 7595.
antiviral activity, 2-(1'-aminoethyl)-bicyclo [2.2.1]heptane	canned food, hygiene, disinfection 5091.
chlorohydrate 8890.	milk 5098.
antiviral activity, 2-(1'-aminoethyl)-bicyclo[2.2.1]heptane chlorohydrate 7183.	milk, effects on Campylobacter fetus subsp. fetus, Campylobacter fetus
chickens infection, diagnosis, antibodies, association yolk 6454.	subsp. veneralis, Campylobacter fetus subsp. jejuni, survival 3535. milk, energy conservation, dairy industry 175.
detection, enzyme immunoassay, radioimmunoassay, nasopharynx, man 1523.	milk, growth, Streptococcus lactis, Streptococcus thermophilus, Lactobacillus
hydrazones, antiviral activity 7184.	bulgaricus, cold storage, effects on 3468.
indole-3-carboxaldehyde thiosemicarbazones, antiviral activity, structure-activity relationships 7185.	milk, milk products, food quality 5089.
Paralongidorus,	milk, packaging, patents 7589. milk production, factors affecting 7556.
transmission, cherry leaf roll virus, soil, Prunus 1905.	time effects on, psychrotrophic bacteria, milk 6685.
Parameters,	ultrahigh temperature, dairy products, Pseudomonas lipase, heat resistance 7590.
bacteriostasis, antibiotics, radiometry methodology, bacteria 6518.	ultrahigh temperature, inactivation, kinetics, bacteria spores, milk 3529.
Paranapiacaba waterhousei, disease transmission, vectors, bean curly dwarf mosaic virus, bean mild mosaic	Pasteurized milk,
virus, Costa Rica 6781.	contamination, gram-negative bacteria, detection, methodology 1772. Mycobacterium isolation 7569.
Paraquat,	pretreatment, heat treatments, effects on contamination 5101
effects on, assays, Rhynchosporium secalis spores, Secale cereale 5381.	Pastinaca sativa,
effects on fruit rot, Rhizoctonia solani, Cucumis sativa 1083. effects on Glycine max tissues, fungi pathogens 6753.	blight, Pseudomonas marginalis, Pseudomonas viridiflava, etiology 1105.
effects on, membrane permeability, fungi 2889.	Cylindrocarpon destructans canker 1951. strawberry latent ringspot virus infection 1961.
effects on, soil microorganisms, enzymatic activity 2974.	Pasture,
effects on soil properties, nitrogen mineralization 7082.	fungi, molds, weather, effects on, Australia 150.
nitrogen, soil amendment, effects on straw decay 5386.	grazed, Trifolium repens roots, infection, fungi, soil microorganisms 6074.
Parasexual cycle, Colletotrichum lagenarium mutants, anastomosis, role, pathogenicity,	runoff, water quality 1489.
Cucurbitaceae, 3728.	Salmonella typhimurium, indicator species, survival, manure, soil amendment 8760. Pasturella multocida,
	clinical isolates, identification, disc-diffusion test, penicillin G, nafcillin
	the state of the s

'asturella multocida, (continued) Patents, (continued) 3261.

saturized milk, coliforms, counting methods 9310.

hatent applications,
(R)-N-[rans-3-phenyl-2-propenyl]-2-(1-naphthyl)piperidine, synthesis, antifungal activity 7168. extracts, use enzymes 6263 extracts, use enzymes 6263.

isopremylanines, antiviral activity 7955.

leaves moisture detection equipment, Peronosporales infection 7368.

low-calorie beer, production, fermentation, Oryza sativa pullulanase 5879.

methylphosphonothioic diamides derivatives, symbasis, antifungal activity 6195.

microorganisms, acrylamide production, acrylonitrile conversion 6641.

milk, pasteurization, packaging 7589.

milk products, fermentation, acidogenic bacteria 6710.

Monascus monacolin K biosynthesis, inhibition cholesterol biosynthesis 5856.

mushrooms, culture 7367.

oxazolinozeteidinoses symbasis, intermediates, penicillin analogs 7228. hatenis,

Actinomycetes biosynthesis antibiotic BBM-928, antibacterial activity, gram-positive bacteria 7244.

Actinoplanes, biosynthesis, planothiocin antibiotics 6283.

N-alkynylamilides synthesis, antifungal activity 6193.

D-a-amino actids synthesis, use Pseudomonas enzymes 5826.

6-amino-aprio-[penam-2,4-*peneridne]-3-carboxylic acids derivatives, synthesis, antibacterial activity 6175.

6-amino-sproi-[penam-2,4-*peneridne]-3-carboxylic acids derivatives, synthesis, antibacterial activity 6176.

aminoplycoside antibiotics purification, column chromatography 7240.

amidoliols derivatives, antibacterial activity 7164.

antibacterial activity, chlorhexidine disorbate, chlorhexidine diphosphanitae 7165.

antibacterial activity, betacillin derivatives 7225.

antibacterial activity, betacillin derivatives 7225.

antibacterial activity, betacillin derivatives 7225. oxazolinoazetidinoes synthesis, intermediates, penicillin analogs 7228. packaging equipment, liquids, asepis 7209. packaging materials, sterlization 6219 paromomycin derivatives synthesis, antimicrobial activity 7234. paromomycin derivatives synthesis, antimicrobial activity, penicillinase inhibition 2.1141. 6174.

vectors, disease transmission, maize sterile stunt virus 6813. Perfect state,

erfect state, Cryptococcus neoformans, Filobasidiella neoformans, formation, association, Aves manure media (culture) 9120. Glomerella cingulata, Malus bitter rot 6833. Puccinia velutina sp. nov., rust, Aecidium elaeagni association, host-parasite interactions, Carex, lenta, morphology 6856. Rhizoctonia solani, fruiting, media (culture) 9976.

Performic acid, antiviral activity, phage ΦX174 6198

Periconia circinata.

Perconia circinata, milo disease, toxins, electrolyte balance, symptoms inductions, sorghum 5990.

Periconia sarawatipurensis, pectin biodegradation 9264.

Peridermium yamabense sp.nov., stem rust, Pinus flexilis 1931.

Periodontal diseases,

errodontal diseases,
man, Bacteroides fragilis, Bacteroides melaninogenicus, distribution,
fluorescence microscopy 5659.
oral hygiene effects on, man 696.
Streptococcus mutans, Streptococcus sanguis, association tobacco, in vitro
effects on 5449.
errodonofifii

Periodontitis, bacteria, treatment, antibacterial activity, stannous fluoride, man 1322. clinical isolates, tetracycline antibacterial activity, man 3997.

Periplasmic space,
Alteromonas, aminopeptidase, purification, characterization 3409.
gram-negative bacteria, membrane permeability, penicillinase, β-lactam antibiotics antibiotic resistance 8794. Perithecia,

Gaeumannomyces graminis, formation, induction methodology, in vivo, in vitro 3320

Gaeumannomyces graminis, production, methodology 829. Venturia inaequalis, benomyl pesticide resistance, substrate preferences, Malus 6125.

Peronosclerospora maydis, downy mildew, Zea mays, haustoria, shoots, ultrastructure 1056.

Peronosclerospora philippinensis, downy mildew, metalaxyl disease control, seed treatments, Zea mays 9625. Peronosclerospora saccharl, disseminated infection, host range, Taiwan 6740. Peronosclerospora sorghi, downy mildew, association, sugarcane mosaic virus, disease resistance, breeding, Sorghum bictori 9567.

Sorghum occorr 3017.

downy mildew, disease resistance, Sorghum bicolor, strains 9421.
downy mildew, disease resistance, Sorghum bicolor, strains 9421.
downy mildew, Life cycles, Zea mays, temperature, humidity, effects on 1881.
downy mildew, Zea mays susceptibility 5173.
powdery mildew, susceptibility, Zea mays 9369.
Sorghum downy mildew, distribution, USA, Kansas 6795.

Sorghum down, alacepinnin, USA, Kansas 6795.

Peronospora arboreta, distribution, USA, Kansas 6795.

Peronospora arboreta, Garrian, Canada 3717.

Peronospora destructor, downy mildew, Allium cepa, morphology, diagnosis 5218.
downy mildew, Allium cepa, weather effects on epidemice 5510.
downy mildew, Allium cepa, weather effects on epidemice 5510.
downy mildew, Meather effects on, Allium cepa 5240,
sporangium elease, Allium cepa infection, relative humidity, I.R. radiation, vibrations, effects on 9536.
sporangium discharges, association, Allium cepa infection 8647.

Peronospora farinosa f.sp. spinaceae,
phytoalexins induction, Spinacea oleracea 322.

Peronospora hyoscyami f.sp. tabacina,
disease resistance. Nicotiana tabacum 4449.

Peronospora manshurica,
infection, disease resistance, hypersensitive response, genetic analysis, Glycine
max 8573.
infection, Glycine max, disease resistance, alleles association cell death

infection. Glycine max, disease resistance, alleles association cell death hypersensitive response 9577.

hypersensitive response 95/7.

Peronospora parasitica,
infection, Brassica oleracea, analysis, atmosphere water potential, control
methodology 9988.
metalaxyl resistance induction, U.V. radiation 9787.
parasitism, Albugo cruciferarum galls, Brassica campestris 6906.

Peronospora parasitica growth,
liver, media (culture) 3321.

Peronospora sparsa, dryberry, overwintering, Rubus hybrids 2865.

arycerry, overwintering, Kuous nyonds 2863.

Peronospora tabacina,
blue mold, association, weather, epidemiology, Nicotiana tabacum 6872.
blue mold, infectivity, association, freeze-thawing, Nicotiana tabacum 6858.
conidia, drying, dispersal, blue mold, Nicotiana tabacum 6871.

Peronosporales, infection, leaves moisture detection equipment, patents 7368.

eroxidase, activity, Cucurbita maxima leaves, infection, pumpkin mosaic virus 3675. antibacterial activity, Bacillus cereus 3913. catalase mediation, antibacterial activity, Mycobacterium tuberculosis 2146. Cucumis sativus, role disease resistance, infection, Colletotrichum lagenarium 3733.

isoenzymes, Triticum, Puccinia recondita, resistance 1125. kinetics, Nicotiana tabacum, tobacco mosaic virus, potato virus X infection

effects on 9479.

Nicotiana hybrids, tumors development, tumor promoting agents effects on 6020.

tumors development, o-diphenols, infection, tumor promoting agents 6021.

Peroxisomes, eronsomes, carnitine acetyltransferase, comparison, mitochondria, Candida tropicalis 8355. catalase, punification, characterization, Candida tropicalis 7444. physiology, alkanes, metabolism, yeasts, reviews 9752.

Persea, fruits, Phytophthora cinnamomi, incidence, control 1897.

Persea americana, avocado sunblotch disease viriod infection, pathology, ultrastructure 3669. avocado sunblotch disease viriod infection, detection, use, complementary DNA

avocado sunbiotch disease viroid, infection, detection, RNA, assays 2794, avocado sunbiotch disease viroid, sun blotch, detection, electrophoresis 6933. avocado sunbiotch viroid infection 8622. fruits, storage effects shell life 1120 pathogenesis, growth, Phytophthora cinnamomi, temperature effects on 2801. pathogens, Boarmia selenaria, biological control, Bacillus thuringiensis, Israel 4962.

4902.

Phytophthora cinnamomi, root rot, strains, biotyping 6885.
seedlings, disease control, root rot, Phytophthora cinnamomi 9607.
sun blotch, avocado sunblotch disease viroid, disease transmission, Cinnamomum zeylanicum 6895.

sun blotch, viruses, temperature effects on disease spread 6941. Persicum,

susceptibility, spot, Xanthomonas pruni 4433.

post-harvest decay, Alternaria alternata, prevention, imazalil 2871.

Persistent infection,
Mycoplasma-like organisms, Malus pumila proliferation, Pyrus communis decline Vero cells, chick embryos adaptations mumps virus, role, defective-interfering

particles 2348. Personnel,

food industry, isolation, Staphylococcus aureus, enterotoxins, carriers, nasopharynx 8562.

Pertussis, children, v

children, vaccines characterization 7258. vaccines, dose-response effects, bioassays, computer applications 3144.

Pseudomonas solanacearum, wilt, Solanum tuberosum 7711.
Pseudomonas solanacearum, wilt, Solanum tuberosum, isolation, incidence 7708. Pesotum,

cellulose decomposition, mud flats isolates 9669.

Pest control,

est control, Aedes aegypti, biological control, Bacillus thuringiensis var.israelensis, Bacillus thuringiensis var.kurstaki, powders 5849. Anacardium occidentale plantations, rhabdovirus oryctes, Plocaederus ferrugineus

Bacillus thuringiensis, Glycine max, pathogens, Anticarsia gemmatalis, Cesotoma trifurcata 3332.

biological control, Abies balsamea forests, Choristoneura fumiferana, Bacillus

pH, (continued) H. (continued)

carbenicillin, antibacterial activity, association, acetylcysteine 8935.
carbenicillin antibiotic resistance, plasmids 8777.
carbenicillin resistance, role, cell membranes, penicillin-binding protein 7892.
cations effects on, chloramphenicol drug resistance, growth 7898.
cefinetazole, antibacterial activity 8931.
cefoperazone, antibacterial activity 8931.
cefoperazone, antibacterial activity 8931.
cefoperazone, antibacterial activity 8931.
cefoperazone, antibacterial activity 4691.
cefoperazone, antibacterial activity 4691.
cefoperazone, antibacterial activity 4691.
cefoperazone, antibacterial activity 4694.
cephalosporins antibacterial activity 6242.
cephalosporins antibacterial activity, parents 7222.
chlorhexidine drug resistance, plas antibotice sensitivity testing, cephalosporins antibacterial activity, parents 7222.
clinocial solates, antibacterial activity, patents 7222.
clinocial solates, antibacterial activity, carbanicillin, boric acid 9858.
clinical solates, antibacterial activity, carbanicillin, boric acid 9858.
clinical solates, antibacterial activity, ceftazidime 4695.
clinical solates, antibacterial activity, ceftazidime comparison cephalosporin antib media (isolation), Salmonella, sulfacetamide 3306. mental tolsvessicies, profiler ramport, dihydrostreptomycin effects on 8042.
merelic deducate, profiler annie franceterization special conditions and service merelic lilini merelic lilin on 4043.
moxalactam, antibacterial activity, in vitro 1425.
moxalactam, comparison, thienamycin, gram-negative bacilli, antibacterial
activity 7141.
mutants, antibiotic sensitivity testing, antibiotic synergism, carbenicillin, mutants, antibiotic sensitivity (esting, antibiotic synergism, carbenicium, kanamycin 380.

N.M.R., cytochrome odl 9162.
neomycin antibiotic resistance, mechanisms, cytochromes levels association 7905.
nitrite reductase interaction nitrite. N.M.R. 8397.
nontmocold, cystic fibrosis clinical isolates, media (selective), use, iron 8237.
Norflavacin, antibacterial activity, comparison, chemotherapeutics, oral administration 8071. administration 8071.

ornithine decarboxylase, difluoromethylornithine inactivation 4928.

outer membranes, membrane permeability β-lactam antibiotics, relationship antibiotic resistance 8824.

outer membranes, proteins lipopolysaccharides complex, characterization 1688.

1-oxacephem derivatives antibacterial activity 6248.

1-oxacephem derivatives antibacterial activity 6248.

penicillinase, vaintig 3077.

penicillinase inactivation ceftazidime, kinetics 4582.

penicillinase purification, characterization, antibiotic resistance, carbenicillin 1281.

penicillinase, purification, characterization, antibiotic resistance, β-lactam antibiotics 2108.

β-lactam antibiotics 2108.

β-lactam antibiotics 2108.

β-lactam antibiotics 2108.

plosphoenolpytuvate-fructose phosphotransferase, purification, activity 4920.

plasmid pMG35, cloning, gentamicin, antibiotic resistance, genes, Escherichia coli 7903.

plasmid p YMB1, antibiotic resistance, drug resistapce, sisolation 502 coli 7903.

plasmids, plasmid pYMB1, antibiotic resistance, drug resistance, isolation 502.

potassium cyanide effects on Pseudomonas cytochrome oxidase conformation, use subtilistin proteolysis probes 5575.

protocatechuate 3,4-dioxygenase subunits, amino acid sequence 2587.

Pseudomonas, Pseudomonas maltophilia, identification, fibrinolysis 2467.

psychrotrophic bacteria, milk, udder hygiene, milking machines 6687.

pyochelin structure 4281.

procin typing, empiriporium, antibiotic sensitivity testing 2754. antibiotics 4683.

clinical isolates, antibacterial activity, ceftazidime 4695.

clinical isolates, antibacterial activity, ceftazidime 4702.

clinical isolates, antibacterial activity, cephalosporins, use antibiotics treatment cystic fibrosis, man 4703.

clinical isolates, antibacterial activity, cephalosporins 7899.

clinical isolates, antibacterial activity, gentamicin, sisomicin, aminosidine, rifamycin 2236. pyochetin structure 4281.
pyocin typing, aeruginocine, antibiotic sensitivity testing 7254.
pyocins, C.D. 6279.
pyocins, C.D. 6279.
pyocins, solution, characterization, pyocin typing 2737.
pyocyanin, antibacterial activity, bacteria 4954.
pyruvate dehydrogenase multienzyme complexes deficient mutant, purification, characterization 893. clinical isolates, antibacterial activity, moxalactam, cefoperazone 8929, clinical isolates, antibiotic resistance, ceftazidime, antibacterial activity comparison, cephalosporins 4690. inical isolates, cefoperazone antibacterial activity, man serum effects on 8924. comparison, cephaiosporins 4690.

clinical isolates, cefoperazione antibacterial activity, man serum effects on 8924.

clinical isolates, cefoperazione antibacterial activity 4692.

clinical isolates, cefuzzidime, antibacterial activity 6241.

clinical isolates, moxalactam+gentamicin, antibiote synergism 9876.

clinical isolates, moxalactam, antibacterial activity 6241.

colonization, substrate preferences, methodology 1610.

contamination, media (isolation), Salimonella, sulfacetamide effects on 3306.

cytochrome coll, heme environments, Raman spectroscopy 4876.

cytochrome coll, heme environments, Raman spectroscopy 4876.

cytochrome coll, Arma cytallography 2632.

cytochrome coll, activity and collinia colli characterization 993.
radioimmunoassay, proteinase 8315.
recovery surfaces, antibacterial activity, aerosols disinfectants 6172.
recovery, surfaces, antibacterial activity Thran 5800.
recovery, surfaces, antibacterial activity, Thran 6168.
resistance, U.V. radiation 497. resistance. U.V. radiation 493. sewage isolates, media (enrichment) 9933. silver nitrate antimicrobial activity 6214. strains, cfsaluodin, antibiotic resistance, characterization 9780. strains, thienamycin, azlocillin; comparison, aminoglycoside antibiotics, antibacterial activity 721. susceptibility, serum bactericidal activity, man, in vitro 1315. tetracycline effects on virulence 7990. thiolactomycin antibacterial activity 6254. tetracycline artical activity 6256. ticarcillin, antibiotic resistance, antibacterial activity, cefsulodin, ceftazidime 4697. ceftazidime 4697. tobramycini ecfotaxime, moxalactam, serum bactericidal activity, man 582 toxoids, immunoglobulin E antibodies production, mice 1841, urinary tract infection isolates, antibacterial activity, antibiotic MK-0366, in vitro 7138. viability, antibacterial activity, β-lactam antibiotics, role, adherence, surfaces 2206. Pseudomonas allicola, infection, Allium cepa, antibacterial activity, thiosulfonic acid 9796. Pseudomonas arsenitoxidan sp.nov., biochemical characteristics, arsenic oxidation 9743. biochemical characteristics, arsenic oxidation 9743.

Pseudomonas arvilla,
catechol 2,3-dioxygenase, immobilized enzymes, kinetics 6581.

NADH dehydrogenase, iron-sulfur centers, reconstitution, activity 4897.

Pseudomonas avenae,
Gramineae leaf blight, temperature, light, effects on 7648.

Pseudomonas carrboxydohydrogena,
dehydrogenase, purification, characterization 1721.

Pseudomonas carrboxydohydrogena,
carbox of coverans,
carbox of cover lagelia, antigens, antisera production 800.

(lagella, serolyping, phage typing 1550.

food contamination, weating, infants, man 7572.

formaldehyde, microbiocidal activity 7921.

N-formimody) thienamycin, antibacterial activity, comparison, antibiotics 8066.

N-formimody) thienamycin, antibacterial activity, stability, penicillinase 4008.

N-formimody) thienamycin, comparison, β-lactam antibiotics, antibacterial activity 8062. 799.

Pseudomonas cepacia,
antibacterial activity, cefotaxime 1385.
bacteremia, association, povidone-iodine contamination, man, hospitals 3177.

Pseudomonas aeruginosa, (continued)

freshwater pollution, agricultural runoff, rivers, Czechoslovakia 1486. gentamicin, antibiotic resistance, plasmids, expression, Escherichia coli 7901

Pseudomonas phaseolicola, (continued)
plasmids, association, phaseolotoxin biosynthesis 1033.
replication, Phaseolotoxin phaseolitoxin biosynthesis 1033.
replication, Phaseolus vulgaris, cultivars, genotypes, effects on 1051.
role, phytoalexins induction, plants, antibacterial activity 6038.
toxins, purification, methodology 2402.
virulence, agglutination, plant extracts, Phaseolus vulgaris 2421.
pseudomonas pisi,
inoculation, Dolchos biflorus, production, pterocarpans 256.
role, phytoalexins induction, plants, antibacterial activity 6038
Pseudomonas pseudoalcallegenes,
metabolism, di-butyl phthalate, anaerobic conditions, association, nitrate 7839.
Pseudomonas pseudoancallegenes subsp., cirulli,
infection, Citrullus lanatus, cultivars, disease resistance 6918.
Pseudomonas pseudoancallegenes subsp., cirulli,
infection, Citrulus lanatus, cultivars, disease resistance 6918.
Pseudomonas pseudoancallele,
antibodies, man, detection, indirect fluorescent antibody test 3258.
biodogradation, p-aminoaczobenzene, characterization 5914.
drug sensitivity testing 4675.
Pseudomonas putida,
antibacterial activity, serum, meat extracts, rabbits 6169.
certizoxime, antibacterial activity, vivino 591.
cephalosporanic acid amidase, isolation, activity 4249.
cytochrome P-450, redox potential relationship spin transitions 3346.
cytochrome P-450cam, amino acid sequence 6547.
cytochrome P-450cam, amino acid sequence 6547.
cytochrome P-450, reconstitution, kinetics dehydrocamphor epoxidation 4989. Pseudomonas cepacia, (continued)
bacteremia, povidone-iodine contamination 4792.
biodegradation, 2.4.5-T 5910.
ceftazotime, antibacterial activity 4691.
ceftizoxime, antibacterial activity, in vitro 591.
clinical isolates, antibacterial activity, ceftazidime 4702.
contamination, skin cleaning products, chlorhexidine antibacterial activity 1358.
penicillinase, hydrolysia, ceftroxime, cetotaxime, immunological aspects 886.
+Septoria nodorum, effects on, photosynthesis, transpiration, Triticum aestivum
248. Pseudomonas chloroaphis, incidence, soil, USSR, association oil 9758. Pseudomonas citronellolis, pseudomonas citronellolis, pentide mann Pseudomonas citronellolis, protide mapping, amino acid composition, quaternary structure 2594.

Pseudomonas corouafaciens, population dynamics, Avena sativa 1053.

Pseudomonas corrugata, wound infection, Medicago sativa, association Nematoda 5163.

Pseudomonas cytochrome oxidase, potassium cyanide effects on conformation, use subtilisin proteolysis probes, Pseudomonas acruginosa 6575. Pseudomonas cytochrome oxidase, potassium cyanide effects on conformation, use subtilisin proteolysis probes, Pseudomonas aeruginosa 6575.

Pseudomonas aeruginosa 6575.

Pseudomonas dacunhae, producinos describatorios de mobilizad cells, aspartate 4-decarboxylase activity 4896.

Pseudomonas dealin facasion, drinking water 6506.

simmobilized cells, denitrification, drinking water 6506.

simmobilized cells, denitrification, drinking water 6507.

nitrate reduction, antagonism, Escherichia coli, rivers 7810.

Pseudomonas diminuta, aminoacylase isoenzymes, purification, characterization 6587.

biodegradation, parathion 5907.

lipopolysaccharides, isolation, D-threo-pent-2-ulose 4937.

Pseudomonas fluorescens, antibacterial activity, antibiotics 2204.

bioaccumulation, uranium, thorium, industrial wastes 5592.

blotch, etiology, pathology, Agaricus bisporus 6919.

cholesterol oxidase, cholesterol esterace, purification 6582.

cream spoilage, temperature effects, nitrous oxide effects on 171.

drug resistance, mercury 1247.

ethylene biosynthesis, soil, in vitro, aeration effects on 4527.

fish spoilage 5036.

glucose oxidation detection, association, beef spoilage 7554.

4-bydroxybenzoate 3-monoxygenase, amino acid sequence 5733.

hygiene, swimming pools 8130.

isolation, peat, methodology 7349.

lipase, gel filtration, methodology 6606.

pigments, cheaking agents, antifungal activity. Geotrichum candidum 9802.

plant diseases, Circhorium intybus, vascular system pathology 3738.

proteinase, biosynthesis, milk, characterization 5011.

proteinase, purification, characterization 2786.

proteinase, biosynthesis, milk, characterization 5011.

proteinase, purification, characterization 5011.

proteinase, purification on the delicity of the max, temperature effects 1949.

infection, necrosis inhibition cytochrome P450, reconstitution, kinetics dehydrocamphor epoxidation 4989. dehalogenation, monochloroacetic acid, dichloroacetic acid, 2-monochloropropionic acid, 2,2-dichloropropionic acid, exp.vaniac exp.v achu, 2,2-dichloropropionic acid, enzymatic activity, characterization 956.

3,4-dichloroaniline mineralization enhancement, association, aniline 7864. dihydrolipoamide reductase, valine substrate specificity, effects on keto acid dehydrogenase 4263.
ethylene Pseudomonas putida, soil, in vitro, aeration effects on 4527. fish spoilage 5036. growth, alkane 1-monooxygenase, activity 5785. incidence, soil, USSR, association of 9758. incidence, soil, USSR, association of association valine 4886. manuscus section, dehiogenase, 2-monochlorobunoic acid. post of the soil of th 713.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            antitungal activity, amphotencin B derivatives, structure-activity relationships 6190.

antifungal activity, amsamtocinis +amphotencin B, autibiotic synergism 3099.

antifungal activity, conazole, thiamine, role 3033.

antifungal activity, conazole, thiamine, role 3033.

antifungal activity, 2-vonjulinana derivatives 7940.

antifungal activity, 2-vonjulinana derivatives 7940.

asparate aminotransferase, substrate specificity 9202.

ATP production, immobilized enzymes, creatine kinase, 6-phosphofructokinase 7426.

autolysis, volatiles, aroma compounds, wine 2637.

15-azasterol, inhibition, growth 1325.

bioassays, polyene antibiotics, calorimetry 3960.

biomass production, mathematical models 82772.

biosynthesis, S-methyl thioacetate 2625.

biosynthesis, S-methyl thioacetate, role, off flavor, beer 2630.

bleomycin cytotoxicity, factors affecting 8966.

breeding, killer factor, sake fernmentation 4287.

calcium effects on actin polymerization 9150.

carbohydrate metabolism, cells survival, nutrient status effects on 929.

call division, glucose limiting factors effects on, continuous culture 1576.
                   Puccinia recondita, Triticum aestivum seeds disease resistance, gene expression
                   44/10.

Puccinia striiformis, Triticum 252.

Puccinia velutina sp. nov., perfect state, Aecidium elaeagni association, bost-parasite interactions, Carex lenta, morphology 6856.

Synchytrium psophocaropi, disease resistance, Psophocarpus tetragonolobus 228.

Trifolium repens, Uromyces trifolii repentis var.trifolii-repentis, USA, North Carolina 5148.
                     Triticum aestivum cultivars, disease resistance 6025.

Triticum aestivum, disease resistance, disease control, genetic control 5262.

Triticum aestivum, indole-3-acetic acid effects on 5167.
                   Triticum aestivum, Puccinia graminis f.sp.tritici development, temperature
effects on 5180.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              cell division, glucose limiting factors effects on, continuous culture 1376. cell division synchronization, use, N-hydroxyurea, in vitro 1659. cell membranes, cytolysis, N-N-dimethyl-1-methyldodecylarnine oxide 8894. cell membranes, imidazole effects on 533.
                 Uromyces appendiculatus, Phaseolus vulgaris cultivars, factors affecting 7638.
Uromyces appendiculatus var.appendiculatus, Phaseolus vulgaris, Puccinica coronata var.avenae, Avena sativa, filipin sterols complex, electron microscopy 8586.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              cell membranes, imidazole effects on 533.

cell surface agglutiums, purification, characterization 8284.

cell walls, acid phosphatase, purification, characterization 2543.

chitinase, purification, characterization 4886.

cholesterol esterase, purification, characterization 1731.

clinamic acid decarboxylation 931.

Clostridium accebotylicum, hexoses+pentoses, fermentation, ethanol, L-butanol, biosynthesis 9236.
                 Uromyces fabae, disease resistance, Pisum sativum var.arvense, India 4484.
Uromyces phaseali var.typica, Phaseolus vulgaris, susceptibility 8587.
Uromyces phaseoli, Phaseolus, epidemiology, mathematical models, greenhouses 4407.
                 Uromyces phaseoli, Phaseolus vulgaris, resistance, virulence, genes, interaction, inheritance 9367.
               inheritance 9367.

Uromyces phaseoli, Phaseolus vulgaris, virulence, inheritance 9366.

Uromyces phaseoli var.typica, epidemiology, fields, Phaseolus vulgaris 9380.

Uromyces phaseoli var.typica, experimental infection, epidemiology, Phaseolus vulgaris 5180.

Uromyces phaseoli var.typica, Phaseolus vulgaris, association, lesions size, spores production 9377.

Uromyces phaseoli var.typica, Phaseolus vulgaris cultivars, disease resistance 3226.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              biosynthesis 9236.
comparison, Fusarium oxysporum f.sp.lini, Mucor, Saccharomyces cerevisiae, immobilized cells, fermentation, ethanol 5883.
copper containing metallothionein, metallothionein copper coordination, X-ray absorption 6545.
copper resistance 2139.
cycloheximide resistance, cyh2 gene, ribosomal protein L29, hybridization analysis 6126.

Cucumis sativus, relative humidity Pseudomonas lachrymans, effects on 6854.
Rowers, storage conditions effects on 560. formyltetrahydrofolate synthetase, temperature effects on, Clostridium acidurici 4219. Self-association prephenate dehydratase, Escherichia coli 2597. Flusarium moniliforme, asymptomatic infection, incidence, genetic analysis, hybrids, Zea mays 1069. gene expression Triticum aestivum, effects on disease resistance rust Puccinia recondita 4476. cattle, bacteria isolates, antibiotic sensitivity testing 3961. cattle, viruses contamination, detection, methodology 5626. contamination, Candida albicans, fungi, cryopreservation, man 3057. Semiarid environments, acctylene reduction, Medicago sativa, Lupinus mutabilis, nodulation, Rhizobium 5375. germination, Apium graveolens, Fusarium oxysporum, in vitro f.sp.apii, effects on 3/19.
germination, crops, Azotobacter chroococcum effects on 9736.
germination, growth, Lycopersicon esculentum, inhibition, Pseudomonas tomato,
damping-off 1940.
germination, Hordeum, Gliochadium roseum, effects on 2770,
germination, Oryzopis miliacea, Penicitilium funiculosum effects on 4418.
germination, Phaseolus aconitifoius, Aspergillus flavus affatoxins effects on 5375.

Caragana arborescens nodulation induction, Rhizobium inoculation 8758. nitrogen cycle, mineralization, soil 9729.

Rhizobium introgen fixation, nitrogen cycle, agricultural practices 7073. iemliki Forest virus, antiviral activity, bases, inhibition, penetration 5472. defecture-interfering particles, assays 1528. envelopes proteins, fusion, erythrocytes, use, antibiodies detection 6446: interferon antiviral activity, remantadine± ribavirin effects on 7965. penetration, hamsters kidney cell culture, monensin inhibition 9883. enacacrin A. Glycine max, bean pod mottle virus, association, Phomopsis infection, incidence 9378. Glycine max, Cerotoma trifurcata pests damage, association Alternaria infection 9361. lycine max, damage, Alternaria tenuissima infection, association Cerotoma trifurcata 9384. Senacarcin A, antitumor antibiotics, Streptomyces endus subsp.aureus biosynthesis, isolation, characterization 8408.

Sendal virus, antibodies, detection, enzyme-linked immunosorbent assay 3209. envelopes glycoproteins, purification 765. infected cells, glycoproteins detection, immunoperoxidase test, immunoelectron microscopy 4806. phenyl-6-chioro-6-deoxy-B-D-glucopyranoside, antiviral activity 3942.

Senecio sylvaticus, ***
host plants, plum pox virus, isolation, evaluation 305. Glycine max, germination, infection, Chaetomium cupreum, effects on 6756.
Glycine max, nitrogen content, Rhizobium japonicum hydrogenase nodulation effects

on 1214.

Oli 1218. Glycine max, purple stain, Cercospora kikuchii, effects on germination 6759. Gossypium, faity acid composition, Aspergillus flavus infection effects on 1119. Gossypium hirsutum, infection, Fusarium semitectum 7740. Gossypium hirsutum, post-tharvest decay, Aspergillus, Rhizopus, lipids, fatty acids, utilization 3745.

Hordcum vulgare, detection, barley stripe mosaic virus, enzyme-linked immunosorbent assay 6823.

Hordeum vulgare, mycorthizas effects on 407.
infection, fungi, hydrochloric acid seed treatments 3803.
Lablah niger, 'Vigna sesquipedalis, seed-borne fungi, isolation, identification, pathogenicity 6880.

Lactuca sativa, infection, lettuce mosaic virus, disease control, viruses elimination 6914

Leguminosae, inoculation, Rhizobium, nitrogen fixation, nodulation 7079. leguminosae, Rhizobium pretreatment, association, germination 7824. Lens esculenta, stored products, contamination, Aspergillus flavus, aflatoxins,

screening 1837. Linum usitatissimum, Sesamum indicum, oils content, Fusarium equiseti, Fusarium

Automa usataussmium, Sesamum indicum, oils content, Fusarium equiseti, Fusarium oxysporum, infection effects on 2811. Lycopersicon esculentum, Piper nigrumi, survival, Pseudomonas syringae pv.tomato, Manthomonas campestris pv.vesicatoria 8657. Malus, plant extracts, agglutination factors, Erwinia amylovors, characterization 4168.

Medicago sativa, Verticillium albo-atrum infection 5152.

carbon dioxide measuring techniques, fermentation 4300. Separation, alcohols, Mycobacterium tuberculosis, high-performance liquid chromatography

host plants, plum pox virus, isolation, evaluation 305. Senegal,

Separation techniques, chromatography, ubiquinone, bacteria 5652. column chromatography, viruses, models 4803. hepatitis B virus+coagulation factors 4099.

penicillin, high-pressure liquid chromatography 8938, penicillin N, isopenicillin N, high-pressure liquid chromatography 8936. tenaquinones, high-performance liquid chromatography, bacteria 8241.

Arachis hypogaea chlorosis, nodulation, nitrogen fixation 7078.
Rhizobium, nodulation, nitrogen fixation, inoculation, Glycine max 7076.

Senescence, association, Glycine max, Phomopsis sojac infection, mycelia growth 6762. Rhizobium meliloti, association, photosynthate, Medicago sativa 1206.

metabolism, Nocardia, factors affecting 8402.
                                                                                                                                                                                                                                                                                                                        pears, post-harvest decay, Coprinus, association cold storage conditions 6951.
Pythium iwayamai, disease resistance, Triticum aestivum 6805.
                                                                                                                                                                                                                                                                                                                Pynitum way small.

Soaps,
antibacterial activity, Staphylococcus aureus 3024.
industrial wastes, single-cell protein production, yeasts, screening, fatty acids decomposition 3345.
 Skim-milk.
         comparison, poly(vinylpyrrolidone), lyophilization, Bacteroides fragilis, thermal stability 5676.

lactic acid bacteria, enzymes, cosmetics components production, patents 5825.
```

Soaps, (continued)
palm oil, ammonium, use, single-cell protein production, Candida, Saccharomyces
lipolytica 8299. Socio-economic aspects, effects on, oral hygiene, dental disorders, children, man, Nigeria 3187. effects on, incidence, elubroot, Plasmodiophora brassicae, Brassicae oleracea capitata, soil 5237. Sodium arsenate, biodegradation, bacteria 83. biodegradation, microorgenisms, chemostats 451. Sodium azide, effects on, Trichoderma, soil microorganisms 458. Sodium benzoate, +heat, synergism, inactivation, yeasts 3929. Sodium beazoute,
+-beat, synergism, inactivation, yeasts 3929.

Sodium bisulfite,
synergism, dimethylsulfoxide, antiviral activity, phage λ 9821.

Sodium brophydride,
effects on, Saccharomyces cerevisiae mannans 4271.

Sodium chloride,
effects on cheese ripening 5064.
effects on cheese ripening 5064.
effects on Morazella+Acinetobacter colonies 3918.
effects on Morazella+Acinetobacter colonies 3918.
effects on, Saccharomyces cerevisiae, sugars fermentation, ethanol production,
gelatin media (cultury 4288.
effects on, Salmonella, adherence, muscles tissues, chickens 1791.
effects on sodium chloride 5432.
fishery products, preservation 6716.
preservatives, annibacterial activity, Salmonella typhimurium 3534.
tolerance, Sclerotium rolfšii, growth, glucans production 6620.

Sodium chlorite,
pretreatment, Oryza sativa straw cellulose, biodegradation, Trichoderma reesei
6678. 6678 Sodium diacetate, Sodium diacetate, antifungal activity, fungi, fermentation residues 6183. inhibition, molds, feeds, silage 1003.
Sodium dimethyl dithlocarbonate, disease control, post-harvest decay, Fusarium, Cucumis melo 6952.
Sodium dodecyt benzensulfonate, antibacterial activity, Thiobacillus novellus, Thiobacillus denitrificans, Thiobacillus ferroxidans 4627.
Sodium dodecyt sulfate, antibacterial activity, Thiobacillus novellus, Thiobacillus denitrificans, Thiobacillus ferroxidans 4627.
Corynebacterium glutamicum, effects on L-lysine biosynthesis 7381. dissociation Micrococcus lysodeliticus catalase 6570.
effects on enterotoxins tertiary structure, U.V. spectroscopy, Clostridium perfingen 4389.
immunodiffusion, cowpea mosaic virus, cucumber mosaic virus, squash n immunodiffusion, cowpea mosaic virus, cucumber mosaic virus, squash n immunodiffusion, cowpea mosaic virus, cucumber mosaic virus, squash n immunodiffusion, cowpea mosaic virus, cucumber mosaic virus, squash n immunodiffusion, cowpea mosaic virus, cucumber mosaic virus, squash mosaic virus, southern bean mosaic virus, detection, rabbits 4802. Sodium fluoride,
antibacterial activity, Streptococcus mutans, pH effects on 6164.
effects on Streptococcus mutans growth 3917.
+iodine, antibacterial activity, denial caries, rats, Streptococcus mutans, in vitro 3016 National Sodium hydrogen 3-(N-hydroxyformarnido)propylphosphonate, antibacterial activity, in vitro, in vivo 1300.

Sodium hydroxide, antiviral activity, parvovirus (porcine), pseudorabies virus, transmissible gastroenteritis virus 1341. treatment, Oryza sativa straw cellulose, biodegradation, Trichoderma reesei 6678. treatment, silage, Sorghum vulgare, feeding trials, cattle 2704. Sodium hypochlorite, antibacterial activity, Escherichia coli, Streptococcus faecalis, assays 2150. antiviral activity, parvovirus (porcine), pseudorabies virus, transmissible gastroenteritis virus 1341. ased treatments, Capsicum annuum, symptoms, association, tobacco mosaic virus infection, urassmission (seed) 6904. Sodium isoascorbate, effects on, Clostridium botulinum, toxins production, pork slurries 973 Sodium lignosulfonate, biodegradation, microorganisms mixed culture 5919. Sodium nitrate, effects on, Clostridium botulinum, toxins production, pork slurries 973. Sodium airrite, antibecterial acrivity. Salmonella typhimurium, Clostridium perfringens, Micrococcus, Escherichia coli 3922.
effects on, Clostridium boulinum, toxins production, pork slurries 973. inhibition, Clostridium boulinum, metabolism, preservatives, cured products 6774.

Sodium pentachlorophenate,
effects on, nitrogen fixation, Azotobacter, soil 2973.
mutagens, Aspergillus niger 1647.

Sodium phosphate,
effects on Morazella+Acinetobacter colonies 3918.

Sodium polyaaethol sulfonate,
inhibition, gentamicin, antibacterial activity, Staphylococcus aureus, bioassays
2429. Sodium selenite, antiviral activity, Rauscher leukemia virus, bovine leukemia virus, DNA effects on, cadmium toxicity, Staphylococcus aureus 1295.

effects on, canimin brachy, supplytectees antes 1295.
Sodium sulfite,
biodegradation, microorganisms mixed culture 5919.
Sodium 5-aminosatifonyl-2,4-dichlorobenzoate,
antiviral activity, viruses, infection, tissue culture, mice 7962.

Soft rot,

Soft rot, (continued) fertilizers, spatial distribution, effects on 1086. fertilizers, spatial distribution, effects on 1086.

Ewinia carolovora subsp. carotovaora, latent infection, post-harvest decay, host-pathogen interactions, Lycopersicon esculentum 1969.

Euphorbia trigona, characterization, Rhizopus stolonifer, disease resistance, disease control 6876.

Josepharies decay, papaya, Fusarium acuminatum, Fusarium equiseti, Fusarium oxysporum 2874.

post-harvest decay, Phomopsis sapotae sp. nov, Achras sapota 3744.

prevention, treatment, pentachlorophenol, wood, Pseudotsuga menziesii 2921.

cereals, Aspergillus glaucus, Aspergillus candidus, temperature, humidity effects on 7345.

cereals stored products, Penicillium, Aspergillus glaucus, relative humidity effects on 9546.

Clostridium botulinum, spores, toxins production, radiation preservation, poultry

Clostridium, canned food, meat 5035.

Clostraium, canned rood, meat 0935.

cold storage, bacteria, organoleptic properties, seafood, Euphausia superba 5925.

cream, bacteria, temperature effects, nitrous oxide effects on 171.

dairy products, microorganisms, growth inhibition test, Streptococcus lactis subsp. diacetylactis, Leuconostoc cremoris, Leuconostoc dextranicum 5015.

eggs, storage, brine, effects on 5087.

fish, association, Pseudomonas fluorescens, Pseudomonas perolens, Pseudomonas perolens, Pseudomonas

eggs, storage, brine, effects on 5087.

fish, association, Pseudomonas fluorescens, Pseudomonas perolens, Pseudomonas putida 5036.
fishery products, psychrophilic bacteria, psychotrophic bacteria, reviews 6697.
fishery products, relationship, bioluminescence, Photobacterium phosphoreum, Beneckea harveyi 6480.
frozen food, fish, thawing, chilling effects on 114.
fungi, biodeterioration, fermentation, books 9136.
fungi, Sorghum, mycotoxins contamination, environmental conditions, crop fields effects on 8525.
ham, vacuum packaging, Brochothrix thermosphacta 6718.

am, vacuum packaging, Brochothrix thermosphacta 6718

hay, Actinomycetes, ammonia, amblecterial activity 5072.

Katsuwonus pelamis, bacteria, histanine production 8476.

meat, Acinetobacter, Enterobacteriaceae, Salmonella typhimunum, Escherichia coli, temperature effects 112.

meat, association, fast, bacteria 6690.

meat, association, fats, bacteria 6690.
meat, Brochothrix thermosphacta, taxonomy, nomenclature, reviews 6688,
meat, environmental conditions, Brochothrix thermosphacta 6692.
meat, Pseudomonas isolates, identification, taxonomy (numerical) 7555.
meat, Pseudomonas, taxonomy 6695.
pickled Boletus, yeasts 3475.
poultry, Pseudomonas animal isolates, odors production 3501.
poultry, Pseudomonas, psychrotrophic bacteria, characterization 6696.
Pseudomonas, Potassium sorbate preservatives, fishery products 5947.
Pseudomonas, Vibrio parahaemolyticus, shrimp, preservation lactic acid bacteria
5922.

psychrotrophic bacteria, meat, food, fishery products, conferences, books 7371. psychrotrophic microorganisms, Yersinia enterocolitica, pathogenicity 5930, sausages, Streptococcus facealis, Pediococcus pentosaccus, characterization 3490. tomatoes fruit juices, effects on chemical composition, lactic acid bacteria 5024.

Vigna radiata seeds, Rhizoctonia solani, volatiles effects on 1971. wine, yeasts, detection methodology 9981. yeasts, temperature effects on, oranges fruit juices 3492. Spongospora subterranea var.subterranea, seab, Solanum tuberosum, relationship, irrigation, Australia 2826.

Sporangia, release, Peronospora destructor infection, Allium cepa, relative humidity, I.R. radiation, vibrations, effects on 9536.

Sporanginosporeas,
Rihizopus stolonifer, harvesting, characterization, water effects on 1660.
Sporanginas.
discharges, Peronospora destructor, association, Allium cepa infection 8647.
Sporaricia E.

Sporaricins E, Saccharopolyspora hirsuta subsp.kobensis biosynthesis, structure 8962. Saccharopolyspora hirsuta subsp.kobensis, production, characterization 6317. Sporaricins, antibiotics, Saccharopolyspora hirsuta subsp.kobensis, antibacterial activity,

structure 2283

Spore coats.

Spore coaca, Bacillus cereus, proteinase, isolation, characterization 2579, proteins, Bacillus thuringiensis, Bacillus cereus, characterization, biological control, Manduca sexta, Aedes aegypti 4190.
Spore crystals,
Bacillus thuringiensis, infection, Insecta larvae, specificity, biological control 1759.

Spore germination,
Alternaria alternata, Bipolaris monoceras, Cladosporium herbarum, Pinus kesiya extracts aunffungal activity 1333.
animals pathogens, fungi, soil effects on 5327.
Bacillus cereus, Clostrolium boulinum, sorbate effects on 3025.
Bortytis allii, penetration, leaves, Allium cope 2839.
cell walls, Myxocccus kanthus, G-lactam antibiotes, antibacterial activity

2227.

Clostridium botulinum, preservatives, antibacterial activity 9801.
Diplodia pinea, inhibition, Pinus radiata, host-pathogen interactions 2881.
Inngi, Azrobacter effects on 9806.
fungi, Hordeum vulgare guttation fluids, association, nitrogen sources 6800.
fungi, wood colonization, Trichoderma viride metabolites, effects on 3031.
metalaxyl, antifungal activity, Phytophthora parasitica, Phytophthora citrophthora 7175.
Mycorrhizas, fungicides, herbicides, effects on 3879.
Nigrospora oryzae, Helminthosporium sativum, fungicides antifungal activity, mechanisms 528.

Spore germination, (continued) phylloplane fungal flora, Capsicum annuum, leaves exudates effects on 8691. Phytophthora infestans zoospores, media (culture) effects on 820. Puccinia recondita f.sp.tritici, brown rust, sporulation, survival, Triticum aestivum, British Isles, temperature, effects on 1892. Pyricularia oryzze, inhibition, antifugal agents biosynthesis, Oryza sativa, host-pathogen interactions, antibacterial activity 2779. Pyricularia oryzze, inhibition, linolenie acid, biosynthesis, Oryza sativa, host-pathogen interactions 2774. rust, disease control, nicotine derivatives effects on 3787. Spore outgrowth, Clostridium botulinum, nisin effects on 623. Clostridium botulinum, preservatives, antibacterial activity 9801. Clostridium sportogenes, monitoring, equipment, methodology 2466.

Clostridium sporogenes, monitoring, equipment, methodology 2466.

Spore-forming bacteria,
anaerobic conditions, dairy products contamination 8475.

Aspergillus clavatus, cell walls extracts, mutagenesis, tumorigenesis, micc 5133.
Aspergillus parasiticus, Allium cepa plant extracts antifungal activity 3925.
Bacillus antifunesis, pigs manure sluries, disinfection, peracetic acid 5581.
Bacillus cereus, exudates, proteins, enhancement, bacteriostasis,
S-nitrosomercaptocitanol 1685.

Bacillus cereus, germination, phenylglyoxal effects on 7140.
Bacillus coagulans, electron probe analysis, elements distribution 1540.
Bacillus, isolation, heat treatments, soil 8737.

Bacillus pumilus, radiation sensitivity, alcohols, paraffins, effects on 2156. Bacillus sphaericus, U.V. radiation radioresistance, association, protein A,

Bacillus sphaericus, U.V. radiation rautoresteance, aprotein B 5423.

Bacillus sphaericus, toxicity, ingestion, Culex quinquefasciatus larvae, biological control 6627.

Bacillus stenothermophilus, Clostridium botulinum, temperature tolerance, computer applications 4146.

Bacillus stearothermophilus, heat resistance, bioassays sterilization 6495.

Bacillus stearothermophilus, indicators, sterilization 7202.

Bacillus stearothermophilus, sterilization indicators, relative humidity, storage officets on 7985.

effects on 1/983.

Bacillus starothermophilus, sterilization indicators 8030.

Bacillus subtilis, Bacillus megaterium, viability, heat resistance, ethidium bromide, aerillavin, daunomycin, effects on 2159.

Bacillus subtilis, binding, peptde antibiotics, aminoglycoside antibiotics, role, antibacterial activity 4671.

Bacillus subtilis, formatderlyde, disinfection, heat activation 8851.

Bacillus subtilis, freeze drying effects on, heat resistance, population density 1250

L200.

Bacillus subtilis, penetration, medical equipment packaging materials 7207.

Bacillus subtilis, production, agar media (culture) 5655.

Bacillus subtilis var.niger, propylene oxide sternization 1356.

Bacillus thuringiensis, antibacterial activity, Erio acid red XB 400 dye, photoinactivation 2167.

Bacillus uniflagellatus, powder, antifungal activity, plant diseases, control cooc.

6996 bacteria, inactivation kinetics, ultrahigh temperature pasteurization, milk 3529. bacteria, sporicides, books 9135.
Clostridium botulinum, growth, role, Enterobacteriaceae, molds, tomatoes fruit

juices 133. Clostridium bot um, toxins production, spoilage, poultry, radiation

Clostridium butyricum, immobilized cells, starter cultures, fermenters, asepsis methodology 4133.

Clostridium perfringens, contamination, littoral zone, lakes, recreation sites

9899.

Clostridium sporogenes, media comparison, enumeration, recovery 5662. Colletorichum graminicola, β-D-fructofuranosidase, isolation, characterization 3375. Conidiobolus obscurus, enumeration, soil, methodology 3842. Curvularia lunata, immobilization, steroids hydroxylation 8404. Curvularia lunata, mycelia, 11β-hydroxylase hydroxylation, gels media (cuture) 4670.

(culture) 4924.

Designation of the control of the co

fermented food 4528.

indicators, sterilization efficiency, factors affecting 7204.

morphology, Bacillus cereus, Bacillus anthracis, identification 4843.

mycorhiza, isolation, association, soil detrius removal 8734.

Myxobacterales, morphology, media (culture), methodology 9957.

Phytophthora infestans, incoulum potential, Solanum tuberosum, seasonal variations effects on 9537.

production, association, lesions size, Phaseolus vulgaris rust 5149. production, association, Uromyces phaseoli var.typica, rust, Phaseolus vulgaris

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            vitro 3970. agglutinis, role, sedimentation, reviews 126. antibacterial activity, antibiotic DL 473, in vitro, in vivo 1750. antibacterial activity, antibiotic DL473, rifampicin, in vivo, in vitro 3095. antibacterial activity, cefadroxil 2214. antibacterial activity, cefadroxil 2214. antibacterial activity, cefadroxil 2214. antibacterial activity, reflexionships 7158. antibacterial activity, ready activity, rea
        strains differentiation, electrophoresis plasmids DNA 4845.

Streptooccus lactis subsp. diacettlactis,
encapsulation, biosynthesis, action, diacetyl, effects on cheese flavor 144,
mutants, fatty acids biosynthesis, milk 3427.

Streptococcus lactis subsp. diacetylactis,
growth inhibition test, spoilage microorganisms, dairy products 5015.
inhibition, Escherichia coli, starter cultures, cheese 7566.

Streptococcus milleri,
citrate metabolism, enzymps, characterization 1714.

Streptococcus milleri,
bacteriocias, biosynthesis, siolation 8077.

Streptococcus milleri,
isolation, blood culture, growth, media (culture) 3280.

Streptococcus milleri, bacteriocins, biosynthesis, isolation 8077.

Streptococcus mills,
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               Notifiakachi, antioseterian activity, companison, chemiouerapeutics, oral administration 8071. proteins, binding immunoglobulins, use immunoassays, patents 7335, wound infection, association, carcasses bone, occupational exposure, abattoirs, man 1794.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        would interton; association, careasses tonic, occupational exposure, abatton man 1794.

Streptococcus salivarius, batteriocins, isolation, charcterization, antibacterial activity 2272.

R form, S form, extracellular polysacchardes characterization 3420. inorganic pyrophosphatase, purification, characterization 7428.

Streptococcus sugues, endocarditis, reatment, benzylpenicillin, fosfomycin, cefoxitin, rabbits 572. saliva, dental plaque, chlorhexidine effects on, man 521. tobacco effects on, in vitro, association periodontal diseases 5449.

Streptococcus thermophilus, antibiotics ensitivity testing, aminoglycoside antibiotics, β-lactam antibiotics, tetracyclines 3081. antimicrobial activity, pyridines 4659. biosynthesis, antimicrobial agents, culture, milk, role, yogurt 3951. β-D-galactosidase, purification, characterization 2565. growth, milk, posteurization, cold storage, effects on 3468. growth, milk, proteolysis, effects on 13. isolation, media (culture) 124. metabolism, cheddar chese 3905.
           Streptococcus mitis,
blood culture, media (culture), identification 1621.
dextran glucosidase, isolation, characterization 865.
dipepidyl peptidase IV, purification, characterization, substrate specificity
2569.
           2569.

Streptococcus mutans,
antibacterial activity, iodine, sodium fluoride, pH effects on 6164.
antibacterial activity, iodine+sodium fluoride, rats 3016.
antigens, purification, immunosorbents, column chromatography, proteins
lipoteichoic acid, competition 1544.
bacteria, identification, gas chromatography 2429.
bacteriocins, antibiosis. Actinomyces viscosus 621.
dental plaque, growth, metabolism, xylitol+sorbitol, effects on 522.
dental plaque, plysaccharides, metabolism, dextranase, release, batch culture
densition plasses presument 4122.
                         9200.

deposition, glass, measurement 4122.
deposition, glass, measurement 4122.
dextranase inhibitor, purification characterization 8288.
formate acetyltransferase, purification, characterization 4227.
glucans biosynthesis, glucans effects on 33.
growth, selenium fluoride, sodium fluoride, selenium chloride, effects on 3917.
laminaribiose phosphorylase, purification 1706.
morphology, protein biosynthesis, peptidoglycans biosynthesis, penicillin, effects on 3086
phospholipase A1, extracellular levels, activity 7403.
proteins antigens, purification, characterization 850.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           isolation, media (culture) 124.
metabolism, cheddar chesse 9495.
microorganisms, yogurt production, biochemistry 107.
milk, starter cultures, quality, relationship 5924.
6-phosphofructokinase, purification, characterization 4222.
yogurt, enumeration, use, agar media (culture) 1589.
Streptococcus viridans,
cefinetazole, antibacterial activity 8011.
drug resistance, penicillin, infection, man 6141.
eye diseases, drug sensitivity testing, case surveys 5494.
Streptococcus zooepidemicus,
animal isolates, horses, isoniazid antibacterial activity 7167.
Streptocyclism
                         phospholipase A1, extracellular levels, activity 7403, proteins antigens, purification, characterization 850.

Pyruvate kinase, purification, characterization 4259.

sativa, dental plaque, chlorhexidine effects on, man 521.

serotypes, biosynthesis, polysaccharides, carbohydrate composition 2616.

serotypes, gleans, structure, methylation 8406.

strains, serotyping, agglutination, methodology 9942.

Streptococcus milleri, bacteriocins, biosynthesis, isolation 8077.

tobacco effects on, in vitro, association periodontal diseases 5449.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Streptocycline,
antifungal activity, Sclerotium rolfsii, Piper fungicides 8837.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           antifungal activity, Sclerotium rolfsii, Piper fungicides 8837.

Streptogramin,
antibiotic resistance, determinants, gram-positive cocci, anaerobic bacteria,
genes transfer 8815.

Streptomyces,
D-alanyl-D-alanine proteinase, amino acid sequence 4208.
antagonists, Rhizoctonia bataticola root rot, biological control 4490.
antibiotic antagonism, Rhizotonia solani, Rhytophthora megasperma, pathogenicity,
soil, agar diffusion test 2021.
antibiotic AS-40 biosynthesis, role, amino acids, glycolysis, tricarfoxylic acid
cycle 7252.
antibiotic P-1894B, biosynthesis, inhibition, prolyl hydroxylase 2284.
antibiotic resistance, factarm antibiotics, role, penicillinase,
penicillin-binding protein 2132.
antibiotic resistance, nosiheptide, antibacterial activity protein biosynthesis
4600.
     tobacco effects on, in vitro, association periodontal diseases 5449.

Streptooccuse pluton, honey contamination, sterilization, or radiation 9316.

Streptooccuse pneumoniae, antibacterial activity, antibiotic DL 473, in vitro, in vivo 1750, antibacterial activity, antibiotic DL473, rifampicin, in vivo, in vitro 3095. antibacterial activity, antibiotics, temperature effects on 4674, antibacterial activity, artibiotics, temperature effects on 4674, antibacterial activity, erythromycin, clindamycin, penicillii G, tetracycline, doxycycline, chloramphenicol, cotrimoxazole, in vitro 495, antibiotic resistance, penicilliin, nicedence, USA, Texas 4588, antibiotic resistance, penicilliin, sercening, carriers, man 5413, antibiotic resistance, serotyping, Italy 774.

Streptomyces, (continued)
antibiotic resistance, strep
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        Streptomyces cinereocrocatus,
transformation, dehydrogriscofulvin, stereoselectivity 3464.
Streptomyces cinereoruber,
transformation, dehydrogriscofulvin, stereoselectivity 3464.
                            antibiotic resistance, streptomycin, role, streptomycin 6-kinase, membrane
permeability 2134.
antibiotics biosynthesis, acridine dyes effects on 8911.
avermectins, anthelminthic agents, insecticides, acaracides, toxicity testing
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        Streptomyces cinerochromogene
scab, Solanum tuberosum 2822
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     scab, Solanum tuberosum 2822.

Serbonyces cinaamomeus,
2-ethyl-5-(3-indolyl)oxazole, structure 5858,
kirothricin, structure 2264.

Streptomyces cinaamomenslas,
2-ethyl-5-(3-indolyl)oxazole, structure 8418.

Streptomyces cinaamomenslas,
artibiotic X-14667A, antibiotic X-14667B, structure, relationship, monesin 2279,
biosynthesis, antibiotic X-14667A, antibiotic X-14667B, antibacterial activity

Streptomyces clavuligerus, d. (1-a-aminoadipy)1-L-cysteinyl-D-valine conversion, penicillins 8928. ccphalosporins biosynthesis, association, catabolites regulation 8000. clavulanic acid, biosynthesis pathways 6338.

penicillins production, relationship, d. (1-a-aminoadipy)1-L-valine cyclization 6258.

Streptomyces coelicolor, L-alanine production 6577.

Streptomyces coelicolor, L-alanine production 6578.

Streptomyces collinus subps, albescens, toromycin, biosynthesis, anthracyclines analogs, structure 2270. mutants, conversion, anthracyclines analogs, structure 2270. mutants, conversion, anthracyclines analogs, structure 2270. mutants, conversion, anthracyclines of 44.

Streptomyces collinus subps, albescens, toromycin, biosynthesis, chemical composition 624.

Streptomyces collinus subps, collinus, biosynthesis, antaticnia, antifungal activity 7945.

Streptomyces correncus, subsp. auratalia, biosynthesis antibiotic PS-8, antibacterial activity 8967.
                         dust 989, Phages, soil, pH effects 2016. 
phosphate solubilization 9287. 
production, aminoglycoside antibiotics 638. 
pyrrolomycin A, pyrrolomycin B, biosynthesis, isolation, characterization 2260. 
pyrrolomycin B, biosynthesis, structure 2262. 
resistance mechanisms, B-lactam antibiotics, reviews 4721. 
hizosphere soil, effects on phosphorus levels 9703. 
sediments, fishponds 6065. 
soil microorganisms, lysis, yeasts 9660. 
soil, soild wastes biodegradation, nitrogen, organic compounds 6679. 
tetronomycin biosynthesis, structure, antibacterial activity, gram-positive bacteria 6323.
                                                dust 989
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  Streptomyces creates stuage, area and, so bosynthesis antibiotic PS-8, antibacterial activity 8967. 
Streptomyces cyanogeaus, urate oxidae, purification, characterization 2531. 
Streptomyces disastation subsp. amytostaticus, present control of the control of th
     bacteria 6323.
thermophilic bacteria, alkaline proteinase, insulin cleavage 24.
Streptomyces afghaniensis,
cellulose, xylanase, characterization 861.
Streptomyces albo-niger,
puromycin biosynthesis, association, catabolites regulation 8000.
Streptomyces alboquiseolus,
subtilisin inhibitor, tryptophan residues, N.M.R. 5770.
Streptomyces albulus,
lysine polyumers biosynthesis 2515.
Streptomyces ambodiaciens,
macrolide antibiotics conversion 9877.
spiramycin production, genetic control, role, plasmid pSA1 6339.
Streptomyces anandii,
        Streptomyces anandti,
gilvocarcins, isolation, structure, antitumor activity, antimicrobial activity
7979.
  gitt/Ocarcins, isolation, satisfaction, antibiotic resistance, role, plasmids 4591.

7979.

Streptomyces antibioticus, actinomycin, biosynthesis, antibiotic resistance, role, plasmids 4591.

phenonazinone synthase isoenzymes, purification, characterization 25

Streptomyces arease, antitumor agents biosynthesis, screening 8409.

gittoracrin, isolation, characterization 7484.

Streptomyces argenteolus, asparenomycins characterization 6333.

biosynthesis, asparenomycins 6332.

Streptomyces atroofivaceous, scab, Solanum tuberosum 2822.

Streptomyces atroofivaceous, auroonycin biosynthesis, association, fugil, Solanum tuberosum 2822.

Streptomyces auroefactens, auroonycin biosynthesis, association, catabolites regulation 8000.

biosynthesis, vasodilators, structure 5860.

deoxyribonuclesis, characterization, purification 2586.

lumisantomin biosynthesis 4395.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          Streptomyces erythraeus,
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     Streptomyces erythraeus, biosynthesis, crythromycin F 8946. 
erythromycin biosynthesis intermediates activity 8051. 
Streptomyces erythreus, antibiotic resistance, role membranes ribosomes, protein biosynthesis of 153. 
erythromycin biosynthesis of 573. 
erythromycin F biosynthesis 6274. 
optimum erythromycia biosynthesis, nutrient requirements, mathematical models
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  7230.
plasmids characterization, association, erythromycin production 6275.
Streptomyces fimbricatus,
transformation, dehydrogriscofulvin, stereoselectivity 3464.
Streptomyces flavochromogenes,
immobilized enzymes, production, maltose, maltotriose, use, starch 4929.
Streptomyces fradiae,
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   treptomyces fradise, analysis of population dynamics, incidence, soil 9656, mutants, fermentation, 5-O-mycarosylvjactone, tylosin, characterization 5861, mutants, fermentation, 5-O-mycarosylvjactone, tylosin, characterization 5861, mutants, S-adenosyl-L-methionine:macrocin O-methyltransferase, tylosin biosynthesis, characterization, assays 2253, mutants, tylosin biosynthesis, characterization 2271, neomycin, biosynthesis, encomycin biosynthesis of proteinases, immobilized cells, batch culture 1715, tylosin biosynthesis, pathway characterization 4748, tylosin biosynthesis, pathway characterization 4748, tylosin biosynthesis, pathway characterization 4748, tylosin biosynthesis, potential macrocin methyltransferase 7255, tylosin, 5-O-mycarosylvjactone structure, X-ray crystallography 8960. treptomyces galilaeus,
                         lumisantonia biosynthesis 4959.
ribonuclease, binding, ribosomes, purification, characterization 2576.
UDP glucosyltransferase, purification, characterization 5822.
verotetrone production, characterization 7481.
     Vertections protection, transactions, transactions, transactions, transactions, transactions, transactions, and transactions, tr
  resistance, thiostrepton 2104.

Streptomyces badius,
biodegradation, lignin, cellulose, nutrient sources effects on 79.

Streptomyces badius,
glucosephosphate isomerase, role, glucose isomerization 5051.

Streptomyces bikiniensis,
antibiotic resistance, streptomycin, genetic control 4599.

transformation, dehydrogriscoduluin, stereoselectivity 3464.

Streptomyces bottropeasis,
structure trioxacarcins, inhibition DNA biosynthesis, Bacillus subtilis 6297.

trioxacarcins, biosynthesis, antibacterial activity, antitumor activity 7485.

Streptomyces cacaol,
penicillinase, enzyme kinetics, inhibitors, antibiotic CP-45,899, cephamycins,
izumenolide 1726.
penicillinase, inhibition, clavulanic acid, antibiotic PS-5, enzyme kinetics
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               antibacterial activity 9872.

2-hydroxyaclacinomycin A, antibacterial agents, characterization 2254. mutants, aclacinomycin A derivatives, biosynthesis, structure 1745.

Streptomyces gluvacareus, gilvocarcin M, structure 642.

Streptomyces glauceaceas, 3-demethoxy3-ethoxyteracenomycin C, antitumor agents 2622. DNA genomes damage, restriction endonuclease mapping 6478.

Streptomyces griscofulvus, xylose isomerase, purification, characterization 2562.

Streptomyces griscoglavus, siolation, structure, naphthocyanidine, antibiotic SF-1739, antitumor activity 8410.
                         penicillinase, inhibition, clavulanic acid, antibiotic PS-5, enzyme kinetics
  1716.
Streptomyces californicus,
transformation, dehydrogriscofulvin, stereoselectivity 3464.
Streptomyces camus,
glycerol kinase biosynthesis, characterization, media (culture), patents 5824.
Streptomyces capillispira sp. nov.,
carboxylesterase, purification, characterization, cephalosporins modification
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       8410
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  Steptomyces griseoruber,

rhodomycin biosynthesis 7249.

Sterptomyces griseosporeus,

biosynthesis, γ-chloronorvaline, structure, antibacterial activity,

Pseudomonas aeruginosa 4000.

pigs pancreas α-amylase inhibitors, isolation, characterization 2634.
Streptomyces cellulosae, endo-1,3-B-D-glucanase, purification, characterization 9170.

Streptomyces cervinus sp. nov., cervinomycin A biosynthesis, antibacterial activity 8951.

Streptomyces chartreusis, glucose incorporation, association, antibiotic A23187 biosynthesis 8063.
```

Streptomyces griseus, antibiotic resistance, streptomycin, genetic control 4599.
4,5-dihydroxydecanoic acid-4-lactone, isolation, regulators differentiation 8424.
leukemomycin, biosynthesis, regulation, NAD(P) nucleosidase 2256.
leurosine conversion, 10 'hydroxyleurosine 6660.
mutants, regulation, sporulation, biosynthesis, streptomycin 1403.
mutants, suptomycin production blocking, role, factor A 6265.
phosphate effects on cyclic AMP levels, association, surepromycin biosynthesis

Streptomyces refuineus, anthramycin, biosynthesis, N.M.R. 4946. biosynthesis, anthramycin, antibiotic resistance, membrane permeability 2105. Streptomyces rimosus, annuaryon, autorotic reissance, incentionate perincatority broStreptomyces rimosus, amylase biosynthesis, soil isolates, characterization 9196.

4-epi-ectocycline transformation

2-decarboxamido-2-acetyl-4-dedimethyl-9-methyltetracycline, antibacterial 1404.
pronase, immobilized enzymes, milk proteins hydrolysis 894, proteinase, tryptophan methyl ester hydrolysis, kinetics, stereoselectivity 3406. regulation, antibiotics differentiation, 4,5-dihydroxydecanoic acid-4-lactone activity 6277 activity 6277.

mutants, oxytetracycline biosynthesis, gene mapping 2248.
plasma membranes, transpeptidase, penicilline-binding protein 1675.
production, oxytetracycline, nitrogen sources, role 1755.
protoplasts, preparation, growth conditions, methodology 9966.
Streptomyces rosecochromogenus,
transformation, dehydrogriscofulvin, stereoselectivity 3464.
Strendomyces roses. regulation, antibiotics differentiation, 4.5-dihydroxydecanoic acid-4-lactone 6316.

fibosomal protein L7/L12, amino acid sequence 5707.

streptomycha biosynthesis, association peptidoglycans biosynthesis, D-glucosamine streptomycian, 1503, transformation, dehydrogriscofulvin, stereoselectivity 3464.

Streptomyces roseus,
biosynthesis, leupeptin, role, proteins turnover 4010,
leupeptin acid reductase, purification, characterization 2583,
leupeptin acid reductase, purification, characterization 4232.

Streptomyces rubellomurius,
3-(N-accut)-N-hydroxyaminolpropylphosphonic acid,
3-(N-accut)-N-hydroxyaminolpropylphosphonic acid,
3-(N-accut)-N-hydroxyaminolpropylphosphonic acid,
structure 645.

Streptomyces rutgersensis,
enzymes, isolation, characterization 1724.

Streptomyces acables,
scab, Solanum tuberosum 2846.
scab, Solanum tuberosum, control, ethionine 339.
scab, Solanum tuberosum, 3,5-dichlorophenoxyacetic acid effects on incidence
2895. Streptomyces subflavus, subsp. irumaensis, biosynthesis, irumamycin, characterization, antifungal activity 6285. activity 6285.

Streptomyces sulfosofaciens sp.nov.,
isolation penicillinase inhibitors 8377.
penicillinase inhibitors production, characterization 6236.

Streptomyces tendse,
metabolites, nikkomycins, isolation, structure 629.

Streptomyces tenebrarius,
tobramycin production, side reactions, fermenters 5550.

Streptomyces tenjimariensishiotic resistance, role, ribosomes 2135.
Streptomyces thermitotlerans,
macrolide antibiotics conversion 9877.

Streptomyces tokumonensis sp.nov. scab, Solanum tuberosum 2822.
Streptomyces macromomyceticus,
purification, characterization, auromomycin, macromomycin A, macromomycin D 8407.
Streptomyces malachtifcus,
scab, Solanum tuberosum 2822.
Streptomyces matensis subsp. vineus,
biosynthesis, vineomycin A, vineomycin B, structure 8974.
vincomycin, structure, antibacterial agents, antitumor agents 2255.
vincomycins biosynthesis 6341.
Streptomyces mediterranel,
nifampicin biosynthesis, characterization, bacteria infection, treatment, man macrotide antibiotics conversion 981/.
Streptomyces tokunonensis sp.nov.,
asparenomycins characterization 6333.
biosynthesis, asparenomycins 6332.
Streptomyces venezuelae,
chloramphenicol biosynthesis, characterization 8942.
Alloquingen biosynthesis isolation mucelii, antiba rifampicin biosynthesis, characterization, bacteria infection, treatment, man 8945. haloquinone, biosynthesis, isolation, mycelia, antibacterial activity, association, DNA biosynthesis 8084. 8945.
Streptomyces melanogenes,
biosynthesis, 1-hydroxysuramycin, 1-hydroxysulfamycin, structure, N.M.R.,
antibacterial activity 9872.
Streptomyces myxogenes sp.sov.,
biosynthesis, oligostatin, antibacterial activity 3108.
Streptomyces introsporeus,
Virantmycin isolation, characterization, antiviral activity 2291.
Streetomyces nitwas. association, DrvA biosynthesis 80094
haloquinone, structure, derivatives 8086
Streptomyces verdensis,
antibiotic U-02162, isolation, characterization 6306.
Streptomyces verdensis sp.nov,
antibiotic U 02162 biosynthesis, antibacterial activity, Staphylococcus aureus 8953 Streptomyces introspreus,
Virantmycis insolation, characterization, antiviral activity 2291.

Streptomyces niveus,
bioaccumulation, uranium, thorium, industrial wastes 5592.

Streptomyces obchraceischerotzus,
biological control, soil microorganisms fungi, Verticillium dahliae, Fusarium
biological control, soil microorganisms fungi, Verticillium dahliae, Fusarium
biological control, soil microorganisms fungi, Verticillium dahliae, Fusarium
coganomycins, biosynthesis, structure 2219.

Streptomyces olivaceus,
enzymes, crop residues biodegradation, sugars 8459.

Streptomyces olivaceus,
antagonism, Alternaria alternata, biological control, leaf blotch, Hordeum
vulgare 3767.
antibiotic DEC-14, antitumor antibiotics, biosynthesis, isolation 5832.

biosynthesis, imacidin C, amino acid sequence 3110.

Streptomyces olivavariabilis sp.nov.,
variamycin B production, isolation, characterization 6293.

Streptomyces organonesials,
organomycins, isolation, characterization, antibocterial activity 585. Streptomyces violaceoniger, niphithricin, elaiophylin, nigericin, biosynthesis, antifungal activity, antibacterial activity, structure 2281. antibacterial activity, structure 2281.

Streptomyces violaceus,
violamycin Bl, binding DNA, electrophoresis 1432.

Streptomyces viridans,
4-hydroxy-3-nitrosobenzaldehyde, antibacterial activity 1366.

Streptomyces viridochromogenes,
pigments, production, liquid culture 6635.

Streptomyces xanthochromogenus,
antibiotic AM-6201, antitumor agents, structure 2621.

Streptomyces xanthochdeus,
biosynthesis, antimycins, structure, mass spectroscopy 6340.

Streptomyces zelensis, Streptomyces zelensis, antibiotic CC-1065, biosynthesis, characterization, antitumor activity 1749. analysis, high-performance liquid chromatography 3091.
antibacterial activity, Mycobacterium avium-intracellulare 6160.
antibiotic prophylaxis, wilt, Verticillium albo-atrum, Lycopersicon esculentum Streptomyces pactum, biosynthesis, pactamycin, N.M.R., structure 8090. 1133.
antibiotic resistance, Arthrobacter, Pseudomonas, rhizosphere, Bouteloua gracilis, roots, et al. (1888). Antibiotic resistance, Bacillus subditis mutants, ribosomal proteins 9788. antibiotic resistance, Enterobactenicae isolates, man, chickens, cattle 3896. antibiotic resistance, Escherichicoli, antibiotic resistance, Escherichicoli, antibiotic resistance, Escherichicoli, affective mutant 2106. antibiotic resistance, Escherichicoli, incidence, chickens, pigs, British Isles antibiotic resistance, Escherichicoli, incidence, chickens, pigs, British Isles Otosynthesis, Parcallus, Streptomyces parvallus, actinomycin D biosynthesis regulation, association, tryptophan 2,3-dioxygenase 8088. Streptomyces paulus, paulomycins production, isolation, characterization 6310.

Streptomyces peucetius, daunorubicin, doxorubicin, antitumor agents, toxicity, methodology, biosynthesis, conversion 4943. antibiotic resistance, Klebsiella clinical isolates, hospitals patients 7906. antibiotic resistance, Methylobacterium organophilum, role, transposon Tn5 7883. antibiotic resistance, Mycobacterium tuberculosis, clinical isolates, surveys, conversion 4943.

Streptomyces peucetius subsp.caesius, mutants, datunomycin, carminomycin I, fendomycin A, conversion, adriamycin 1747.

Streptomyces peucetius ver. aureus, biosynthesis 4-O-demethyl-II-deoxydoxorubicin analogs, isolation, antibacterial activity, antitumor activity 6328.

Streptomyces pluracidomyceticus ap.nov., pluracidomycins biosynthesis, structure 8978. pluracidomycins, structure 6318.

Streptomyces privaciooruscesa, largomycin, biosynthesis, amino acid sequence, antibacterial activity 9881.

Streptomyces proparpuratus, + Bacillus, mixed culture, biosynthesis, pigments 913.

Bacillus, mixed culture, pigments production, neopurpuratin, characterization 4956. Algeria 2114. antibiotic resistance, Rhizobium, enumeration, soil, rhizosphere, Vigna mungo 2041.
antibiotic resistance Rhizobium trifolii, nodulation, Trifolium repens 1202. 2041. antibiotic resistance. Salmonella typhimurium clinical isolates 6154. antibiotic resistance. Salmonella typhimurium, plannis isolates 6154. antibiotic resistance. Staphylococcus aureus 481. antibiotic resistance, Staphylococcus aureus anni 1261. antibiotic resistance, Staphylococcus aureus, man 1261. isolates, cattle 8798. isolates, cattle 8/98.

antibiotic resistance, Streptococcus faecium, R factors 6149.

antibiotic resistance, Streptomyces, role, streptomycin 6-kinase, membrane permeability 2134.

antibiotic resistance, use, markers, competition, nodulation, Rhizobium leguminosarum 7091.

antibiotic ensistivity testing, Moraxella bovis, antibiotic resistance 6156.

antibiotic sensitivity testing, Mycobacterium, clinical isolates 7143. Streptomyces puniceus, variants, antibiotic sensitivity testing, viomycin 8061. Streptomyces purpurascens,
α-L-arabinofuranosidase, purification, characterization 8393.

```
Streptomycia, (continued)
antibiotic sensitivity testing, Mycobacterium fortuitum 5490.
antibiotic sensitivity testing, Pseudomonas aeruginosa, pyocin typing,
aeruginocine 72-4.
antibiotic sensitivity testing, Salmonella, isolates 7989.
                                                                                                                                                                                                                                                                                                                                        shoulture,
blood culture, identification, man 5658.
                                                                                                                                                                                                                                                                                                                                 Suberins,
role antifungal activity 4472.
                                                                                                                                                                                                                                                                                                                               role anutunga scaroly
Submergence,
Trichoderma surcoviride cell culture 6535.
Submitochondrial particles,
cytochrome c oxidase+cytochrome a purification, characterization, yeasts 2546.
2-(Substituted-benzoyl)amiso-3,5,dichloropyridines,
antiviral activity, herpes simplex virus infection, man, cell culture 7959.
             antibiotic sensitivity testing, Shigella dysenteriae, Shigella flexneri, Shigella
                    boydii 5408.
           obyati 5-406.

artibiotic sensitivity testing, Streptococcus group D clinical isolates 5488.

biosynthesis, sporulation, regulation, Streptomyces griseus, mutants 1403.

biosynthesis, Streptomyces griseus, association peptidoglycans biosynthesis,
D-glucosamine interaction 7233.

Bordenila bronchiseptica drug resistance, association R factors, pigs juveniles

Bordenila bronchiseptica drug resistance,
                                                                                                                                                                                                                                                                                                                                          feeding regimes, filamentous bacteria, development, activated sludge 1465.
                                                                                                                                                                                                                                                                                                                               feeding regimes, Itiamentous bacteria, development, activated studge 1403.

Substrate preferences,
association, biomass biosynthesis optimization, Alcaligenes hydrogenophilus 7498.
bacteria colonization, methodology 1610.

effects on flamentous microorganisms, bacteria, activated sludge 1471.

effects on growth, methanogenic bacteria films 4573.
microorganisms, organic compounds production, coal, preparation 5398.
Pseudomonas, adherence, environmental conditions, surface properties, methodology
973.
             drug resistance, Mycobacterium tuberculosis, clinical isolates 8804
            utug resistance, mycooacterum unoreulosis, clinical isolates 8804.
effects on diany starters 5527.
effects on Escherichia coli polyribosomes structure 1402.
effects on Escherichia coli virulence 7990.
effects on protein biosynthesis, polyamines modulation, auxotrophs, Eacherichia coli 3090.
              Escherichia coli, Klebsiella, antibiotic resistance 489
                                                                                                                                                                                                                                                                                                                               8233.

Venturia inacqualis perithecia, Malus, benomyl pesticide resistance 6125.

Substrate specificity,

Accioaccyl-CoA reductase, Zoogloea ramigera 2540.

aminoglycoside adenylyltransferase, Klebstella pneumoniae, Escherichia coli,

Serratia marcaecans, Proteus vulgaris 487.

spartate aminoransferase, Sacchanomyces cerevisiae, Escherichia coli,

Pseudomonas strata 9202.

Pseudomonas strata 9202.
            Escherichia coli, resistance mutants, role, gene Irs, R factor R1 7874. inhibition, hypersensitivity, Glycine max, Pseudomonas syringae 3741. Mycoplasma, antibiotic resistance 2109. Mycoplasma, antibiotic resistance 2110.
           Mycoplasma, antibiotic resistance 2110.

Neisseria gonorm'eaee, antibiotic sensitivity testing, Nigeria 2224.

± neomycin± oxyterracin± chloramphenicol, antibiotic resistance,
Escherichia coli, Salmonella, intestinal microflora, animals 2989.

production, effluents clarification 5579.

resistance, association, Pyrus commanis fireblight 7873.

resistance, Rhizobium legaminosarum, effects on Pisum sativum nodulation 789

resistant mutant, Rhizobium, isolation, characterization 5400.

Salmonella antibiotic resistance 7902.

Salmonella typhi, Salmonella paratyphi, antibiotic resistance, agar dilution test
2096.
                                                                                                                                                                                                                                                                                                                                     asparaze amunotransterase, Saccharomyces cerevisiae, Escherichia coli, Pseudomonas striata 9202.
carboxyl proteinase, kinetics, Rhizopus, Endothia, Aspergillus oryzae, Penicillium roqueforti 8334.
CTP synthetase, Escherichia coli 7443.
dipeptidyl peptidase IV, Streptococcus mitis 2569.
DNA (adenosine-6-)-methyltransferase, Haemophilus parainfluenzae 9182.
DNA (cytosine-5-)-methyltransferase, Harmobacter luteus 9176.
esterase, purification, sugars fermentation, Saccharomyces cerevisiae 3373.
exo-1.4-α-D-glucosidaes, Apergillus niger 5738.
fungi, effects on cellulase biosynthesis 7470.
glutaconate CoA-transferase, Acidaminococcus fermentans 2507.
marine environment bacteria, enumeration, use, microscopes 1594.
proteinase B, Saccharomyces cerevisiae 4203.
ribonuclease T2, Penicillium chrysogenum 9185.
Saccharomyces cerevisiae, hypoxanthine phosphoribosyltransferase, kinetics 4887.
Sporotrichum thermophile, cellobiose dehydrogenase 8395.
o., α-trehalase, Candida tropicalis 5789.
valine, Pseudomonas putida dihydrolipoamide reductase, effects on keto acid dehydrogenase 4265.
Zymomonas mobilis, media (culture) 7315.
ubstrates,
                      2096
             Serratia marcescens, infection, antibiotic resistance, hospitals, neonates, man
            2137.
Staphylococcus aureus, antibiotic sensitivity testing 2103.
Streptomyces griseus, antibiotic resistance, role, enzymes 2984.
Streptomyces griseus, biosynthesis, association, cyclic AMP levels, phosphate effects on 1404.
    Streptomyces griseus mutants, production blocking, role, factor A 6265.

Streptomycin 6-kinase,
membrane permeability, role, antibiotic resistance, streptomycin, Streptomyces
    Streptonigrin,
bactericidal activity, Escherichia coli, iron synergism 7927.
    Streptothricin,
antibiotic resistance, Escherichia coli, screening 2102.
structure, biosynthesis, Streptoverticillium olivoreticuli 3121
                                                                                                                                                                                                                                                                                                                                         dissolved organic carbon, microorganisms growth 9038
                                                                                                                                                                                                                                                                                                                                 effects on posphoglycerate kinase proteolysis, yeasts 4231.
effects on, yield, fermentatio 923.
Subterranean clover red leaf virus,
disease resistance, demeton-5-methyl, Vicia faba 4505.
infection, association, virus-like particles detection, Trifolium subterraneum
   Streptovaricin,
derivatives, inhibition, herpes simplex virus 1 DNA polymerase 3048.
 derivatives, inhibition, herpes simplex virus 1 DNA polymerase 3048
Streptoverticillum, mildiomycin production, patents 7245.
Streptoverticillum cholesterolicum sp.sov.,
β-hydroxysteroid dehydrogenase, purification, characterization 5804.
Streptoverticillum cinamoneum,
1,3-benzotagozcine-2-nones, transformation,
2-(acylamino-R-propyionylamido)-benzophenones 2635.
Streptoverticillium kizacafozesis,
macrolide antibiotics conversion 9877.
Streptoverticillism kizacafozesis,
macrolide antibiotics conversion 9877.
Streptoverticillism of kizacafozesis,
transcriptoricillism of kizacafozesis,
macrolide antibiotics conversion 9877.

hydrocarbons growth, single-cell protein, animals feeds, chickens 985.
hydrocarbons growth, single-cell protein, animals feeds, chickens 1002.
identification, methodology 809.
identification, methodology, veterinary medicine 9068.
immobilized cells, k-carrageenan gels, tricalcium phosphate effects on growth Xvlulose production, yeasts 5864. Yams, wounding, disease control, post-harvest decay 4471. Yeast, bread, fermentation, whey proteins effects on 5929. immobilized cells, re-carrageenan gels, tricalcium phosphate effects on growth 9994, immobilized cells, production, ethanol, cultural characteristics 9245. immobilized enzymes, stability, ATP production 6610, immobilized enzymes, stability, ATP production 6610, immobilized enzymes, use, manose 6-phosphate production 7480, inactivation, potassium sorbate, sodium benzoate, heat, synergism 3929, incidence, suansa, baths 9027, inhibition, enolase activity, fluoride 7411, isolation, blood culture, methodology 2497. Lactobacillus, mixed culture, sourdough fermentation 9293, lipids, fluorescence tests, assaya 1754. litter microflora, antifungal agents food additives effects on, chickens 9313. L-lysiae biosynthesis 5710. lysis, role, soil microorganisms 9660, maltoe metabolism, reviews 4970. media (culture), enumeration, milk products 9978, media (isolation), roze bengal 7362, mitochondria, DNA, antibiotic resistance mutants 7120, mixed culture. Clostridium thermocellulum, cellulose biodegradation, sugars fermentation 347, mycelia formation, incidence, leaf litter, soil, forests 1155. autrosamines formation, wine isolates 4977. veast proteinase B, purification, characterization, Saces cerevisiae, Saccharomyces carlsbergensis 2552. Yeasts. agar diffusion test, drug sensitivity testing, amphotericin B, nystatin, miconazole, 3-fluorocytosine 6124. alcohol dehydrogenase, characterization, comparison, Leuconostoc mesenteroides agard thristonit est. rulg sensativity estudies, amplications, on the construction of myceaa (ormaton, inchesite, isolates 4977.
mitrosamines (ormation, with mice, soul, invesse 1132.
mitrosamines (ormation, with mice, soul, invesse 1132.
mitrosamines (ormation, with mice, sould sould mice, sould delydydegenses, solutions+immobilized enzymes
p1 effects on kinetics, alcohol delydydegenses, solutions+immobilized enzymes pH, intracellular levels, measuring techniques, use fluorescent probes 7357. phosphoenolpyruvate carboxykinase (ATP) proteinase complex, purification, characterization 8312. phosphoenolpyruvate carboxykinase (AFP) proteinase complex, purification, characterization 8312. phosphoglycerate kinase, proteolysis, anions, substrates, metals, chemical modification effects on 4231. population dynamics, Stenocereus gummosus biodegradation 9266. predation, Brachinous plicatilis, culture 161. products, alcoholic beverages, automated methods, breweries 5869. propionic acid preservation, antifungal activity, corn 4359. proteins, animals feeds, sheep, juveniles 5943. purification, characterization, amino acid composition, subunits phenylalanylt-RNA synthesae, mitochoodria, comparison, cytoplasm 7409. raisins, dates, cashew nuts 979. sake, detection, association, acid phosphatase activity, bioassays 4974. septicemia, diagnosis, blood culture, methodology 5620. single-cell protein, content, RNA, DNA, amino acid composition 4351. single-cell protein, content, RNA, DNA, amino acid composition 4351. single-cell protein, diets, protein sources, rats 163. single-cell protein, fieds, chickens 998. single-cell protein, fieds, chickens 998. single-cell protein, methanogenesis, manure, pigs 2703. single-cell protein, methanogenesis, manure, pigs 2703. single-cell protein, methanogenesis, manure, pigs 2703. single-cell protein, methanogenesis, manure, single-cell protein, production, animal wastes, pigs 3344. sing mitochondria 5709.

cytochrome c oxidase, subunits composition 4909.
detection, noodles products 9299.

aar mycosis clinical isolates, drugs, antifungal activity, in vitro 7949.
effects on carbonyls, fermentation, flavor compounds, malt 1763.
effects on, enzymatic activity, glucose effects on 864.

effects on, enzymatic activity, glucose effects on 8690.

effects on grantiromethane inactivation 6590.

enzymes metabolic pathways, cell proliferation, continuous culture, methanol, effects on 4916. effects on 4916. effects on 4910.
ethanol fermentation, fermented food, reviews 6682.
ethanol fermentation, Saccharum officinarum, molasses 5888.
ethanol, fermentation, Saccharum officinarum, molasses 5888.
ethanol fermenters, immobilized enzymes, alcohol dehydrogenase+nicotinamide adenine dinucleotide, enzyme kinetics 9249.
ethanol producenion, agricultural wastes, pretreament, enzymes, acids hydrolysis, 17374. submitochondrial particles, cytochrome c oxidase cytochrome a purification, characterization 2546. sulfite reductase (NADPH), physicochemical properties, kinetics 8326. survival, storage, nitrogen (hquid) 9116. 2,4.6-trinitrotlouene transformation 9276. utilization, hydrocarbones, media (culture), screening, methodology 463. vitability, gas production, storage effects, bread 986. wine, esterase concentration 8433. reviews 6644. ethanol production, crop residues, cost-benefit analysis 6645. ethanol production, crop residues, cost-benefit analysis 6045, ethanol, production, extraction fermentation 5889. ethanol production, fermenters 7513. ethanol production, tubers, Helianthus tuberosus 6651. Eucheuma striatum, carrageeains, growth, media (culture) 1663. extracts effects on, Acetobacter aceit, aceite acid production 9154. fatty acids biodegradation 76. fatty acids decomposition, screening, single-cell protein production, soaps industrial usates 2444. wine, esterase concentration 8433.
wine fermentation, storage temperature, effects on amines levels 5866.
wine, rehydration effects on activity 4979.
wine spoilage, detection methodology 9981.
wine, storage conditions effects on 4299.
yulose, zyluluose, ethanol, production 5864.
Yeasts industries,
industrial effluents, waters will instead of 57. fasty acids decomposition, screening, single-cell protein production, soaps fasty acids decomposition, screening, single-cell protein production, soaps fasty acids decomposition, screening, single-cell protein production, store feeds commination 8498.

fermentation, corn dough, moisture effects on carboxylic acids, association, molds growth 8494.

fermentation, D-cellobiose, D-xylose 9241.

fermentation, food preservation 4295.

fermentation, rodo preservation 4295.

fermentation, settling, recycling methodology 9239.

fermentation, sugars, tubers, Helianthus tuberosus 8434.

fluoride binding enolase 8374.

fluoride binding enolase 8374.

fluoride cargineering, single-cell protein, reviews 6683.

glucose, glucose-o-phosphate, bosphate effects on hexokinase conformation, fluorescence 5737.

glucose-6-phosphate dehydrogenase, denaturation, reactivation, mechanisms, models 8395. Yeasts industries, industries, waste utilization, irrigation 457.
Yellow fever, diagnosis, indirect fluorescent antibody test, man 2341.
Yellow fever virus, diagnosis, indirect fluorescent antibody test, electron microscopy, in vitro 2380. hemagglutinins isolation, use hemagglutination inhibition 7301. yellow fever, diagnosis, indirect fluorescent antibody test, man 2341. Yellow leaf disease, Arca catechua 2805. Yellow leaf-roll, Prunus persica, incidence, distribution, association, Pyrus orchards, USA, California 7681. 8595.

Blucose-6-phosphate dehydrogenase, maturation, benzylpenicillin 612.

c-D-glucosidase, assays 5731.

c-D-glucosidase, assays 5731.

c-D-glucosidase isolation, affinity chromatography 1689.
glutathione levels, colorimetry 1655.
glutathione levels, colorimetry 1655.
glyceraldehyde-phosphate dehydrogenase, immobilized enzymes, activity 9184.
growth, intravenous administration fluids'+albumin 4052.
growth, intravenous administration fluids'+albumin 4052.
growth, susceptibility, actionomycin D, riboflavin, analogs 9871.
Hedera belix plant extracts, antifungal activity 527. Cautorma 7081.

Prunus persac, viruses, epidemiology, USA, California, factors affecting disease spread 6845.

Yellow mosales virus, infection, Pogostemon patchouli, India 3697. intection, rogoricama-like organisms, culture, viahility 4838.
mycoplasma-like organisms, pathology, Cocos nucifera, Cuba 5996.
Prunus persica, transmission, incidence, India 4434.
Spiroplasma, infection, yellows, identification 1925.
viruses, disease transmission, Aphididae vectors, Beta vulgaris 6007.

BACK VOLUMES

Back volumes are available for all CSA journals more than one year old, in either printed or microfiche form.

MAGNETIC TAPE

The CSA journals are available on magnetic tape in machine-readable form for current awareness and retrospective batch searching. Contact CSA Marketing Department for specifications and prices at 301-951-1403.

ONLINE

Some of the above journals are available on differing online information systems including:

- □DIALOG® Information Retrieval Service
- ☐Bibliographic Retrieval Service
- ☐Information Retrieval Service (European Space Agency)
- System Development Corporation Search Service.

For further details contact CSA Database Services, toll free at 800-638-8076. In Maryland and outside continental U.S., call 301-951-1300.
